## Abstracts

Cheniere Energy, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Cheniere Energy, Inc. and its competitors. This provides our Clients with a clear understanding of Cheniere Energy, Inc. position in the [Energy](#) Industry.

The report contains detailed information about Cheniere Energy, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Cheniere Energy, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Cheniere Energy, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Cheniere Energy, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Cheniere Energy, Inc. business.

### **About Cheniere Energy, Inc.**

Cheniere Energy, Inc. engages in LNG-related businesses. The company owns and operates the Sabine Pass LNG receiving terminal in Louisiana through its 90.6% ownership interest in and management agreements with Cheniere Energy Partners, L.P. (Cheniere Partners).

The company also owns and operates the Creole Trail Pipeline, which interconnects the Sabine Pass LNG receiving terminal with downstream markets. One of its subsidiaries, Cheniere Marketing, LLC (Cheniere Marketing) markets LNG and natural gas and develops a portfolio of contracts to monetize capacity at the Sabine Pass LNG receiving terminal and the Creole Trail Pipeline.

The company owns 30% of the limited partnership interests of Freeport LNG Development, L.P. (Freeport LNG), which operates the Freeport LNG receiving terminal. It also develops other LNG receiving terminal and pipeline related projects.

### **Segments**

The company's segments include LNG receiving terminal business; Natural gas pipeline business; and LNG and natural gas marketing business.

## LNG Receiving Terminal Business

The company focuses its development activities on three LNG receiving terminal projects: Sabine Pass LNG in western Cameron Parish, Louisiana on the Sabine Pass Channel; Corpus Christi LNG near Corpus Christi, Texas; and Creole Trail LNG at the mouth of the Calcasieu Channel in central Cameron Parish, Louisiana. Its ownership interest in the Sabine Pass LNG receiving terminal is held through Cheniere Partners, in which the company holds an approximate 90.6% interest. Cheniere Partners owns a 100% interest in Sabine Pass, which during 2009 completed construction of and operates the Sabine Pass LNG receiving terminal. The company owns 100% interests in both the Corpus Christi and Creole Trail LNG receiving terminal projects. In addition, it owns a 30% limited partner interest in a fourth LNG receiving terminal, Freeport LNG, located on Quintana Island near Freeport, Texas.

## Natural Gas Pipeline Business

Cheniere Pipeline Company, the company's wholly-owned subsidiary, develops natural gas pipelines to provide access to North American natural gas markets for customers of Sabine Pass and proposed Corpus Christi and Creole Trail LNG receiving terminals. The company also develops other pipeline projects not primarily related to LNG receiving terminals. Its pipeline systems developed in conjunction with LNG receiving terminals would interconnect with multiple interstate pipelines, providing a means of delivering revaporized natural gas from LNG receiving terminals to various North American natural gas markets.

## LNG and Natural Gas Marketing Business

The company's wholly-owned subsidiary, Cheniere Marketing, is engaged in the LNG and natural gas marketing business. In 2009, Cheniere Marketing began purchasing, transporting and unloading commercial LNG cargos into the Sabine Pass LNG receiving terminal. In addition, Cheniere Marketing has continued to enter into various business relationships to facilitate importing commercial LNG cargos.

## Oil and Gas Exploration, Development and Exploitation Activities

As of December 31, 2009, the company had interests in 13 active wells, including 3 working interests and 13 overriding royalty interests. Three wells have both a working and overriding royalty interest.

## Competition

Natural Gas Pipeline Competition: The company's Creole Trail Pipeline competes with the Kinder Morgan Louisiana Pipeline owned by Kinder Morgan Energy Partners, L.P.

## History

Cheniere Energy, Inc. was founded in 1983.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
