The China Cord Blood Corporation financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes China Cord Blood Corporation competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of China Cord Blood Corporation business.

About China Cord Blood Corporation

China Cord Blood Corporation operates as a cord blood bank in China. The company provides cord blood storage services for expectant parents interested in capturing the opportunities made available by evolving medical treatments and technologies, such as cord blood transplants.

The company also preserves cord blood units donated by the public, provides matching services on such donated units and deliver matching units to patients in need of transplants. It operates the sole cord blood banking licensees in Beijing and Guangdong.

In May 2010, the company invested in a 19.9% equity interest in Qilu Stem Cells Engineering Co. Ltd. (Qilu), the cord blood bank operator in the Shandong province. Its Beijing-based subsidiary, Beijing Jiachenhong Biological Technologies Co., Ltd. operates a licensed cord blood bank in China. The company provides its services through its network of collaborating hospitals in Beijing and Guangdong.

As of March 31, 2010, the company had developed a hospital network consisting of approximately 90 major hospitals in Beijing. As of March 31, 2010, the company owned 16.3% in Cordlife Limited, a provider of cord blood banking services with operations in

Singapore, Australia, Hong Kong, India, Indonesia, and the Philippines.

Cord Blood Banking Services

The company's cord blood banking operations primarily consist of its subscription services, which involve the preservation of cord blood for expectant parents as a precautionary healthcare measure for the benefit of their children and other family members. The company accepts and preserve cord blood donated by the general public and has created a database containing information of the human leukocyte antigen profiles and characteristics of the donors on an anonymous basis.

Suppliers

The company's suppliers include Fenwal Dahua Pharmaceutical Technology (Shanghai) Co. Ltd.; Hangzhou Baitong Biological Technology Co., Ltd.; Beijing Zhu You Ying Kang Technology Development Co., Ltd.; and Beijing Probe Biological Technology Co., Ltd.

Significant Events

On September 15, 2010, China Cord Blood Corporation announced that the company has entered into a framework agreement to form an indirect non-wholly owned subsidiary with the Zhejiang Provincial Blood Center. Through the new entity, the company would obtain its license to conduct private and public cord blood stem cell storage services in China.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
