## Abstracts

China Fire & Security Group, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between China Fire & Security Group, Inc. and its competitors. This provides our Clients with a clear understanding of China Fire & Security Group, Inc. position in the [Heavy Machinery](#) Industry.

The report contains detailed information about China Fire & Security Group, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for China Fire & Security Group, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The China Fire & Security Group, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes China Fire & Security Group, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of China Fire & Security Group, Inc. business.

### **About China Fire & Security Group, Inc.**

China Fire & Security Group, Inc. engages in the design, development, manufacture, and sale of fire safety products for the industrial and special purpose infrastructure industries. The company designs and installs industrial fire safety systems in which it primarily uses its own fire safety products.

The company provides maintenance services for customers of its industrial fire safety systems. Its business is primarily in China, where it operates sales and liaison offices in approximately 20 cities. The company markets its industrial fire safety products and systems primarily to major companies in the iron and steel, power, and petrochemical industries in China.

### **Products and Services**

#### **Total Solutions**

The company designs and installs total fire protection systems for its clients. A fire protection system consists of three components: fire detectors, fire alarm control and network supervisory systems, and fire extinguishing systems. In 2009, the company

designed and installed approximately 181 systems.

## Products

The company provides integrated fire protection products. It manufactures various products, which can be divided into three categories according to their functions, including fire detectors; fire alarm control and network supervisory systems; and fire extinguishing systems.

**Fire Detectors:** The products include linear heat fire detectors, multi-frequency infrared flame detectors, long range infrared combustible gas detectors, fixed point combustible gas detectors, and point fire detectors.

**Fire Alarm Control and Network Supervisory Systems:** The products include fire alarm control unit, fire control room display system, fire safety monitoring center system, and remote customer service system.

**Fire Extinguishing Systems:** The products include water mist fire-extinguishing system, anti-false-spray water spray fire-extinguishing system, gas-based fire-extinguishing system, foam-based fire-extinguishing system, portable and transportable fire extinguishers, and high-pressure cylinders.

In 2009, the company developed products, including fixed point combustible gas detectors, foam-based fire extinguishing systems, and anti-explosive cylinders.

## Customers

The company's customers include Datang Power (Guangdong); Datang Power (Jiangsu); Wuxi Tianyou Special Detection Technology Co., Ltd.; China Power Investment Group (Shanghai); and Tianjin Tianchuan Municipal Engineering Co., Ltd.

## Suppliers

Suppliers of materials and parts for the company's own products are Hebei Qingxian Fangzheng Cabinet Co., Ltd.; Qingxian Zhiyingda Electricity Applicants Co., Ltd.; Nanjing Xianbang Technology Co., Ltd.; Beijing Tianlike Commercial Co., Ltd.; and Beijing Huatai Chuangxin Technology Co., Ltd.

Suppliers of third party products for the company's Fire Safety Systems are Tianjin

Tianxiao Safety Equipment Co., Ltd.; Honeywell (Shanghai); Dinglian High Technology Co., Ltd. (Beijing); Cangzhou Junda Steel Pipe Co., Ltd.; and Wuxi Hongyuan Fire Protection Material Co., Ltd.

## History

China Fire & Security Group, Inc. was founded in 1995.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
