Abstracts

China Jo-Jo Drugstores, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between China Jo-Jo Drugstores, Inc. and its competitors. This provides our Clients with a clear understanding of China Jo-Jo Drugstores, Inc. position in the Industry.

The report contains detailed information about China Jo-Jo Drugstores, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for China Jo-Jo Drugstores, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The China Jo-Jo Drugstores, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes China Jo-Jo Drugstores, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of China Jo-Jo Drugstores, Inc. business.

About China Jo-Jo Drugstores, Inc.

China Jo-Jo Drugstores, Inc. owns and operates a retail pharmacy chain in the Peoples Republic of China (PRC). The company has 31 stores in Hangzhou, the capital of Zhejiang Province.

The company's operations are carried out by three PRC companies: Hangzhou Jiuzhou Grand Pharmacy Chain Co., Ltd. (Jiuzhou Pharmacy); Hangzhou Jiuzhou Clinic of Integrated Traditional and Western Medicine General Partnership (Jiuzhou Clinic); and Hangzhou Jiuzhou Medical & Public Health Service Co., Ltd. (Jiuzhou Service).

The company's stores provide customers with various medicinal products, including prescription and over-the-counter (OTC) drugs, nutritional supplements, traditional Chinese medicine (TCM) products, personal care products, family care products, and medical devices, as well as convenience products, including consumable, seasonal and promotional items. Its stores typically carry approximately 2,500 to 7,500 different products. In addition to these products, the company has licensed doctors of both western medicine and TCM onsite for consultation, examination and treatment of common ailments at scheduled hours. Two of its stores have adjacent medical clinics offering urgent care (to provide treatment for minor ailments such as sprains, minor lacerations and dizziness which can be treated on an outpatient basis), TCM (including

acupuncture, therapeutic massage and cupping), and minor outpatient surgical treatments (such as suturing).

Products

Prescription Drugs: The company offers approximately 2,198 prescription drugs, of which 353 require a physician's prescription.

OTC Drugs: The company offers approximately 1,500 OTC drugs, including western medicines and traditional Chinese medicines, for the treatment of common diseases.

Nutritional Supplements: The company offers approximately 1,300 nutritional supplements, including various healthcare supplements, vitamin, mineral, and dietary products.

TCM Products: Each of its stores maintains a traditional Chinese medicine (TCM) counter, staffed by licensed herbalists who put together packages of herbs in a process similar to how its in-store pharmacists fill out prescriptions. Additionally, the company offers various types of drinkable herbal remedies and pre-packaged herbal mixtures for making soup, which are used by consumers as health supplements.

Sundry Products: The company's sundry products include personal care products, such as skin care, hair care, and beauty products, convenience products, such as soft drinks, packaged snacks, and other consumable, cleaning agents, stationeries, and seasonal and promotional items.

Medical Devices: The company's medical device offerings include family planning and birth control products, early pregnancy test products, portable electronic diagnostic apparatus, rehabilitation equipment, and surgical tools, such as hemostats, needle forceps, and surgical scissors.

Suppliers

The company's suppliers include Zhejiang Yingte Pharmaceutical Co., Ltd. and Hunan Yiyang Pharmaceutical Co., Ltd.

Competition

The company's competitors include China Nepstar Chain Drugstore Ltd.; LBX

Pharmacy, and Tian Tian Hao Grand Pharmacy.

History

China Jo-Jo Drugstores, Inc. was founded in 2003.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
