Abstracts

China Power International Development Ltd. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between China Power International Development Ltd. and its competitors. This provides our Clients with a clear understanding of China Power International Development Ltd. position in the [Utilities](#) Industry.

The report contains detailed information about China Power International Development Ltd. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for China Power International Development Ltd.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The China Power International Development Ltd. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows

presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes China Power International Development Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of China Power International Development Ltd. business.

About China Power International Development Ltd.

China Power International Development Limited operates as a power generating company in the People's Republic of China (PRC). The company's principal business is to develop, construct, own, operate and manage large power plants in the PRC, and engage in investment holdings.

The company and its subsidiaries own and operate the following power plants: Pingwei Power Plant (100% ownership), Pingwei Power Plant II (100% ownership), Yaomeng Power Plant (100% ownership), Yaomeng Power Plant II (100% ownership), Shentou I Power Plant (100% ownership) and Changshu Power Plant (50% ownership), which have a total installed capacity of 7,410 Megawatts (MW) and the installed capacity attributable to the company in these power plants is 6,795 MW.

Pingwei Power Plant: Pingwei Power Plant had an installed capacity of 1,230 MW and its gross generation and net generation were approximately 8,130,300 MWh and 7,749,341 MWh respectively.

Yaomeng Power Plant: Yaomeng Power Plant had an installed capacity of 1,210 MW and its gross generation and net generation were approximately 7,244,617 MWh and 6,666,015 MWh respectively.

Shentou I Power Plant: Shentou I Power Plant had an installed capacity of 1,200 MW and its gross generation and net generation were approximately 7,967,175 MWh and 7,216,857 MWh respectively.

Pingwei Power Plant II: Pingwei Power Plant II had an installed capacity of 1,280 MW and its gross generation and net generation were approximately 2,773,518 MWh and 2,620,985 MWh respectively.

Yaomeng Power Plant II: Yaomeng Power Plant II had an installed capacity of 1,260 MW and its gross generation and net generation were approximately 585,884 MWh and 558,003 MWh respectively.

Changshu Power Plant: Changshu Power Plant had an installed capacity of 1,230 MW and its gross generation and net generation were approximately 6,655,036 MWh and 6,280,282 MWh respectively.

Other Operations

The company also holds shares of Shanghai Electric Power Co., Ltd. (Shanghai Power) (21.92% ownership). As of December 31, 2007, Shanghai Power's attributable installed capacity was 4,964 MW, while the company's was 1,088 MW. As of December 31, 2007, the company's total attributable installed capacity was 7,883 MW.

The company also manages five other power plants on behalf of CPI Holding, which include Qinghe Power Plant (1,000 MW), Guixi Power Plant (500 MW), Fujian Electricity Company (300 MW), Wuhu Shaoda Power Plant (250 MW) and CPI Wuhu Power Plant (250 MW), which have a total installed capacity of 2,300 MW. In addition, the total installed capacity of Huanggang Dabieshan Power Plant (93% ownership), the power plant which has been approved by the National Development and Reform Commission (NDRC) of the PRC and is under construction, would be 1,200 MW, of which the company's attributable installed capacity would be 1,116 MW.

Strategic Alliances

The company established strategic partnership with Pingdingshan Coal (Group) Company Limited in December 2007.

China Power International Development Ltd. entered into a 49-51 joint venture agreement with Sichuan Guangwang Energy Development (group) Ltd. Upon the development scheme, the to-be-built JV would be responsible for the exploitation of the Chuanjing Coal Mine in Yibin City, south Sichuan.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
