Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of China Renji Medical Group Limited business.

## **About China Renji Medical Group Limited**

Softbank Investment International Strategic Ltd. (the company) has focused on the burgeoning Asian Internet/technology sector, with an emphasis on Great China.

Softbank Investment International (Strategic) Limited (SIIS) pursues business opportunities with companies that have an Internet business focus and companies that develops / promotes Internet -enabling technologies

The company's business activities can be classified into the following segments:

### Venture Capital

Online companies: The company provides funding to innovative entrepreneurs and businesses in the Internet/technology sector, with the aim of building them into market leaders. Most of the company's investments tend to be in the later stage of the company's life cycle. As an investee, the company is able to leverage its entire Softbank network of companies.

**Net-Trans:** In addition to investing in Internet/technology companies, the company also assists non-Internet related businesses to transform their business models into Internet-related businesses by infusing appropriate IT resources. The company's Net-Trans (which stands for interNET TRANSformation) team evaluates traditional businesses to identify candidates with the desire and potential to make such transformation. Once identified and agreed upon, the team provides the technical and business know-how to make the transformation, and the company will also invest funds to facilitate the process where desired.

**SBCVI:** The company's subsidiary company, Softbank China Venture Investments Limited (SBCVI) manages the Asia Net-Trans Fund, which makes each investment of up to US\$3.5 million in companies with Internet/technology businesses in Asia, as well as offline companies with strong online potential. As consultant and manager of SBCVI, the company also assists SBCVI to evaluate investment opportunities that fit the criteria of the Fund, as well as to manage the Fund's existing portfolio.

## Investment Banking

Through SBI E2-Capital, a joint venture between SIIS and E2-Capital, the company also provides investment banking services to its investee companies and other clients. Whether a company requires help in fund-raising, corporate restructuring, merger and acquisition, business alliances, or IPOs, the company has the ability and proven track-record to assist.

The company's Investment Banking arm specializes in financial advisory, mergers and acquisitions, structured products, equity capital markets.

**Financial advisory:** The Company integrates industry, product and regional specialization to offer its clients a comprehensive array of advisory services.

**Mergers and acquisitions:** The company's mergers and acquisitions advisory services include providing valuations, fairness opinions, takeover or reverse take-over strategies and divestiture assignments in accordance with the applicable rules and regulations.

**Structured products:** The structured products team works closely with the company's investment bankers to originate structure and execute various financial products. The company's products are customized to meet its clients' risk/reward profiles while obeying specific legal and regulatory requirements.

Equity capital markets: SBI E2-Capital's equity capital markets group provides clients with equity issuance services in the form of IPOs, secondary offerings and private placements.

## Professional Services

Ebizal Group is a fusion of consultancy, marketing and technology disciplines. As the latest value creation initiative of SIIS, it combines three core practices in an integrated professional services division that offers elite services that create business value for top-flight businesses in Greater China and Asia-Pacific regions.

Ebizal Group conducts businesses through three business units: Ebizal Consulting, Ebizal Marketing and Ebizal Technology.

**Ebizal Consulting:** Ebizal Consulting delivers a wide scope of first-class professional management consulting services, alliance management and programme management, strategizing and implementing quality solutions for valued clients.

**Ebizal Marketing:** Ebizal Marketing's core services include public relations - especially investor relations, consumer communications, consumer brand marketing, media relations, event management, VIP services, integrated and interactive marketing, crisis communications, editorial and translation services.

**Ebizal Technology:** Ebizal Technology specializes in design, development and implementation of IT products and services for the education sector, including consulting services on tendering IT projects, customisation of hardware and software products, multimedia classroom projects and comprehensive IT training for teachers.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
