Abstracts

China Shuangji Cement, Ltd. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between China Shuangji Cement, Ltd. and its competitors. This provides our Clients with a clear understanding of China Shuangji Cement, Ltd. position in the [Building Products and Construction Materials](#) Industry.

The report contains detailed information about China Shuangji Cement, Ltd. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for China Shuangji Cement, Ltd.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The China Shuangji Cement, Ltd. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes China Shuangji Cement, Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of China Shuangji Cement, Ltd. business.

About China Shuangji Cement, Ltd.

China Shuangji Cement Ltd. supplies portland cement in the Shandong and Hainan provinces of the People's Republic of China (PRC). The company's processed cement products are primarily purchased by the cement industry for the purpose of making the cement required for the construction of buildings, roads, and other infrastructure projects. Its products have been sold nationally (in the PRC) and internationally in 10 countries.

Products

The company produces portland cement, a basic ingredient of concrete, mortar, stucco, and rout. It is a powder produced by grinding portland cement clinker and calcium, which controls the set time, and minor portions of silicon, iron, aluminum, and sulfur.

The company controls four cement plant facilities, Zhaoyuan Cement Plant and Longkou Cement Plant in Shandong Province and Dongfang Cement Plant and Danzhou Cement Plant in Hainan Province. Its plants produce portland cement. As of December 31, 2009, the combined maximum cement output by these facilities was approximately 1,500,000 metric tons (MT) per year.

Customers

The company's customers are either engaged in the building construction industry or in foreign trade. Its customers are primarily located in Longkou, Penglai, and Qixia in Shandong Province. The company's major customers include Danzhou Mingcheng Cement Management Company; Hainan Haiji Building Company; Hainan Dongfan Shunda Machinery Company; Danzhou Yongcheng Company; Hainan Guangba Engineering Co., Ltd; Danzhou Nada Hongfa Bridge Building Company; Zhaoyuan Jindu Concrete Company; Qingdao Building Material Supplement and Sale Company; Zhaoyuan Building Company; and Zhaoyuan Municipal Engineering Company.

Suppliers

The company's major suppliers include Dongfang Dongan Limestone Supplement Company; Dongfang Hongfa Coal Sale Co., Ltd; Zhaoyuan fuel Company; Danzhao Yalahe Commodity Company; Hebei Jiqing Coal Company; Ou Jiyong; Cangshan Dahan Plaster Supplement Company; Zhanyuan Cogeneration Plant; Danzhou Nanfeng Welfare Packing Plant; and Wangshunde Clay Plant.

Competition

The company's competitors include China Runji Cement and China Advanced Construction Materials Group, Inc.

History

China Shuangji Cement Ltd. was founded in 1971.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
