The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Chuo Mitsui Trust Holdings Inc business.

About Chuo Mitsui Trust Holdings Inc

Chuo Mitsui Trust Holdings, Inc. operates as a financial holding company.

Subsidiaries

The Chuo Mitsui Trust and Banking Company, Limited

The Chuo Mitsui Trust and Banking Company, Limited (CMTB) focuses on retail trust business, banking business, real estate business and stock transfer agency services. CMTB provides loans for first-time homeowners, as well as financing to cover the cost of building a new home, to purchase a home upon selling an older dwelling, and to refinance a home. The scope of lending choices also includes formats, such as the option to combine miscellaneous expenses into a loan, as well as loans with repayment provisions.

CMTB offers two types of reverse mortgages—fixed, annual installments, similar to a pension and disbursements within an established limit whenever the borrower requires funds. Clients can choose the option that fits their needs.

CMTB offers clients a range of real estate-related consultations from various starting

points, including brokerage and securitization, effective land utilization, and real estate appraisals and assessment. CMTB's Consulplaza network and regular branch network comprised 67 branches and 3 sub branches, as of March 31, 2009.

The company's stock transfer agency services include execution of an array of corporate actions, assumed on behalf of stock-issuing clients and all done in accordance with legal and taxation rules. These services encompass annual tasks, such as maintaining shareholder lists, sending out voting notices and invitations to shareholders' general meetings, and calculating and distributing dividends, in addition to stock-related events, including capital increases, stock splits, and the transfer of shares. Stock transfer agency services also include management of special accounts, which are book-entry transfer accounts established by stock-issuing companies to protect the rights of shareholders who do not have accounts at securities companies.

Chuo Mitsui Asset Trust and Banking Company, Limited

Chuo Mitsui Asset Trust and Banking Company, Limited (Chuo Mitsui Asset) engages in the operation of pension trusts and securities trust business.

Chuo Mitsui Asset Management Company, Limited

Chuo Mitsui Asset Management Company, Limited (Chuo Mitsui Asset Management) provides investment trust management services. The funds are combined in various formats, including corporate pensions, public pensions and public sector funds, and are managed according to proposals formulated with the input of clients.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
