The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Citadel Broadcasting Corporation business.

## **About Citadel Broadcasting Corporation**

Citadel Broadcasting Corporation operates as a radio broadcasting company in the United States.

### Segments

The company operates in two segments, Radio Markets and Radio Network.

#### Radio Markets

As of March 19, 2010, the company owned and operated 166 FM and 58 AM radio stations, with a national footprint reaching approximately 50 markets located in 27 states and the District of Columbia. The Radio Markets segment involves in the sale of advertising to local, regional, and national spot advertisers. It has a radio station portfolio that is diversified by programming formats, geographic regions, audience demographics, and advertising clients.

#### Radio Network

The company, in addition to owning and operating radio stations, also owns and

operates Citadel Media (Radio Network), which produces and distributes various radio programming and formats and syndicates across approximately 4,000 station affiliates and 9,000 program affiliations.

The Radio Network business produces and distributes various programs and formats to affiliates, including syndicated talk and music programs. The Radio Network business provides its affiliates with selected proprietary and syndicated content, including ABC News, a major product in radio news, eight 24-hour music formats and targeted programming for urban and Hispanic formatted stations, enabling affiliates to meet their programming needs. The Radio Network distributes its proprietary content on a non-exclusive basis to various stations in a market on both a branded and non-branded basis. The syndicated content, as well as the 24-hour formats, are typically offered on an exclusive basis to one station in a particular market.

The Radio Network is also the sales representative for the ESPN Radio Network content, providing both sales and distribution services. The Radio Network provides a sales staff to solicit and negotiate the sale of advertising on behalf of the ESPN Radio Network and to manage the advertising trafficking, billing, and collection functions.

## Competition

The company's radio network competes primarily with Westwood One, Premiere Radio Networks, and Dial-Global.

## History

Citadel Broadcasting Corporation was founded in 1984.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
