Such information creates your awareness about principal trends of CITIC Resources Holdings Ltd. business.

About CITIC Resources Holdings Ltd.

CITIC Resources Holdings Limited, an investment holding company, through its subsidiaries, focuses on the energy and natural resources sectors. The company engages in the production and sale of oil, coal, aluminium, and manganese; and import & export of commodities.

Operations

The company's activities include the operation of the Portland Aluminium Smelter, which sources alumina and produces aluminium ingots in Australia; the operation of coal mining and the sale of coal in Australia; the export of various commodity products, such as alumina, aluminium ingots, iron ore and steel, and the import of other commodities and manufactured goods, such as vehicle and industrial batteries, tyres, alloy wheels, and various metals, such as steel and aluminium extrusion products in Australia; and the operation of manganese mining and the sale of refined manganese products in the People's Republic of China (the PRC).

The company's activities also include the exploration, development, production, and sale of naphtha and high sulphur fuel oil produced from the Seram Island Non-Bula

Block, Indonesia; the exploration of oil in the Hainan-Yuedong Block in the Bohai Bay Basin in Liaoning Province, the PRC (the Hainan-Yuedong Block); the exploration, development, production and sale of oil from the Karazhanbas Oil and Gas Field in Mangistau Oblast, Kazakhstan (the Karazhanbas oilfield); and the exploration of manganese mining in Gabon, Western Africa.

Geographical segments

The company's geographical segments include Hong Kong, the PRC, Australia, Europe, North America, Kazakhstan, and Other Asian countries.

Acquisitions

In August 2008, the company acquired a 60% equity interest Huazhou Mining Investment Limited, which holds 85% equity interest in Compagnie Industrielle et Commerciale des Mines de Huazhou (Gabon), which principally holds certain pre-operating exploration and mining rights in Gabon, Western Africa.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
