The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Citizens Bancshares Corporation business.

About Citizens Bancshares Corporation

Citizens Bancshares Corporation operates as the bank holding company for Citizens Trust Bank, which provides commercial banking services to individual and corporate customers.

The company, including its main branch, operates 10 branch offices located in Atlanta, East Point, Lithonia, Decatur, Stone Mountain and Columbus, Georgia, and Birmingham and Eutaw, Alabama. It conducts a general commercial banking business that serves Fulton, DeKalb and Muscogee Counties, Georgia, as well as Jefferson and Greene Counties, Alabama, and acts as an issuing agent for U.S. savings bonds, travelers checks and cashiers checks, as well as offers collection teller services.

Loan Portfolio

The company offers consumer/installment loans, mortgage loans, home equity lines of credit, construction loans and commercial loans, with particular emphasis on small business loans.

Consumer Loans: The company's consumer loans consist primarily of installment loans to individuals for personal, family and household purposes, including loans for

automobiles, home improvements, and investments. This category of loans also includes loans secured by second mortgages on the residences of borrowers.

Commercial Lending: Commercial lending is directed principally toward businesses whose demands for funds fall within the company's legal lending limits and which are existing deposit customers of the Bank. This category of loans includes loans made to individual, partnership, or corporate borrowers and obtained for a variety of business purposes.

Investments

The company invests primarily in obligations of the United States, obligations guaranteed as to principal and interest by the United States, government-sponsored enterprises securities, and other taxable securities.

Deposits

The company offers a range of commercial and consumer deposit accounts, including non-interest bearing checking accounts, money market checking accounts (consumer and commercial), negotiable order of withdrawal (NOW) accounts, individual retirement accounts, time certificates of deposit, sweep accounts, and regular savings accounts.

History

Citizens Bancshares Corporation was founded in 1921.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
