Such information creates your awareness about principal trends of Citizens & Northern Corp. business.

About Citizens & Northern Corp.

Citizens & Northern Corporation operates as the holding for Citizens & Northern Bank (C&N Bank) and First State Bank, which provide banking and mortgage services to individual and corporate customers in north central Pennsylvania and southern New York State.

The company's other wholly-owned subsidiaries are Citizens & Northern Investment Corporation, which engages in investment activities; and Bucktail Life Insurance Company, which reinsures credit and mortgage life and accident and health insurance on behalf of C&N Bank. The company also maintains a trust division that provides a range of financial services, such as 401(k) plans, retirement planning, estate planning, estate settlements, and asset management.

Lending Products

The company's lending products include mortgage loans, commercial loans, and consumer loans, as well as specialized instruments, such as commercial letters-of-credit. It grants commercial, residential and personal loans to customers primarily in the Pennsylvania Counties of Tioga, Bradford, Sullivan, Lycoming, Potter, Cameron, McKean, and in Steuben and Allegany Counties in New York State.

Other Services

The company provides trust and financial management services, including administration of trusts and estates, retirement plans, and other employee benefit plans, and investment management services. The company offers various personal and commercial insurance products to individuals and businesses through C&N Financial Services Corporation. C&N Financial Services Corporation also has a broker-dealer division, which offers mutual funds, annuities, educational savings accounts and other investment products through registered agents.

Deposit Products

The company's deposit products include various types of checking accounts, passbook and statement savings, money market accounts, interest checking accounts, individual retirement accounts, and certificates of deposit. It also offers non-insured 'Repo Sweep' accounts.

Investment Activities

As of December 31, 2009, the company's investment portfolio included obligations of other U.S. government agencies; obligations of the U.S. treasury; obligations of states and political subdivisions; mortgage-backed securities; collateralized mortgage obligations; corporate bonds; trust preferred securities issued by individual institutions; collateralized debt obligations; and marketable equity securities.

History

Citizens & Northern Corporation was founded in 1971.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
