The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of City Telecom HK Ltd. business.

About City Telecom HK Ltd.

City Telecom (H.K.) Limited provides residential and corporate fixed telecommunications network and international telecommunications services to customers in Hong Kong and Canada.

The company's wholly-owned subsidiary, Hong Kong Broadband Network Limited (HKBN), is a fixed telecommunications network services operator, providing broadband Internet access up to 1Gbps, telephony, local voice-over-IP services, IPTV services, and corporate data services with its self-built Metro Ethernet IP and fibre network.

Products

Broadband Service

The company's users, with its fibre network, can experience 25Mbps, 50Mbps, 100Mbps, 200Mbps, and 1000Mbps broadband services with symmetric upload and download speeds.

bbMAX: bbMAX provides value-added services to its users, including bbWI-FI; bbWATCH; bbDRIVE; bbGUARD; bbMAINT; and getFAXEASY.

bbWI-FI: The company has hotspots all over Hong Kong, which allow users to go online with their electronic devices.

bbWATCH: Allows users to enjoy TV programmes provided by HKBN's bbTV through their personal computer.

bbDRIVE: Provides online virtual storage up to 10GB, interface, and limitless volume file transfer. Users can also back-up their important documents/files safely with bbDrive.

bbGUARD: Filters away problematic and spam virus emails at the server before reaching email in-box.

bbMAINT: Provides solution to its users to help them solve their non-network technical problems.

getFAXEASY: A service for receipt of fax via a designated email to personal computer. The company would also provide user a 'Fax to Email' personal fax number to improve user privacy.

IP TV Service

bbTV service delivers approximately 80 TV channels, mainly in Chinese language, including 24-hour news channel, movies, animation, Chinese opera, financial news, international news, and entertainment, as well as interactive channels, such as stock quote, ringtone download, and interactive quiz.

Telephony Service

HKBN provides HOMETEL service to Hong Kong people. It also provides 14 different value-added services to its users.

2b 2nd Generation Broadband Phone

The company's 2b 2nd Generation Broadband Phone is a new telephone service. 2b enables to make and receive phone calls from Hong Kong (either home telephones, office telephone, or mobile phones) through the Internet wherever in Hong Kong or overseas.

IDD

The company's international direct calling services, IDD1666 & IDD0030, provide instant connection to overseas.

History

City Telecom (H.K.) Limited was founded in 1992.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
