## Abstracts

Cline Mining Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Cline Mining Corp. and its competitors. This provides our Clients with a clear understanding of Cline Mining Corp. position in the Industry.

The report contains detailed information about Cline Mining Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Cline Mining Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Cline Mining Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Cline Mining Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Cline Mining Corp. business.

### **About Cline Mining Corp.**

Cline Mining Corporation engages in locating, exploring, and developing mineral resource properties. The company owns, or holds an interest in, metallurgical coal and gold properties in Canada and U.S.A., and iron ore properties in Madagascar. Its principal products are metallurgical coals, gold, and uranium.

The company focuses on the development to production of its New Elk coal mine in southern Colorado; exploration and development of gold at its Cline Lake gold property in Northern Ontario, Canada; and exploration of its Bekisopa iron ore properties in Madagascar.

#### **Exploration and Development Projects**

**New Elk Coal Project:** The company owns the New Elk Coal Company LLC; its coal preparation plant with a designed production capacity of 550 tons per hour, buildings, surface, rail right of way and related assets related to the New Elk coal mining properties located in Las Animas County in southern Colorado. The property consists of various parcels of property, which together comprise 18,555 acres (7,508.9 hectares).

**Lossan and Lodgepole Coal Mine Projects:** The Lossan Coal Mine Project is located in

the northeast coalfield of British Columbia approximately 15 kilometers south east of the main Canadian National rail line. The Lodgepole Coal Mine Project is located in the Crows Nest Coalfield in south eastern British Columbia. The Lossan Coal Mine Project comprises a 100% interest in certain coal licenses covering approximately 4,116 hectares in north east British Columbia. The Lodgepole Coal Project comprises a 100% interest in certain coal licenses covering approximately 416 hectares in south east British Columbia.

**Sage Creek & Cabin Creek Coal Mine Projects:** The Sage and Cabin Creek Coal Mine Projects are located in southeastern British Columbia.

**Bekisopa Iron Ore Project:** The company holds five permits comprising the Bekisopa iron ore properties in south-central Madagascar and is evaluating other iron prospects and related development opportunities in the area crystalline formations. The original Bekisopa Permit (Beki 1) covers an area of 25 square kilometers.

**Morondava Uranium Project:** The Morondava Uranium Project is located in the Morondava Basin of western Madagascar, which is filled with the uranium favorable Karoo Supergroup continental sediments.

**Cline Lake Gold Project:** The Cline Lake gold property located near Wawa, Ontario, Canada. During 2008, the company drilled 33 holes totaling 6457 meters.

**Strike Edwards Gold Project:** The company owns a 12.5% interest in the Edwards Gold Property. The Strike Edwards Property is located near Wawa, Ontario, Canada and is adjacent to the company's Cline Lake Gold Property.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
