term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Clorox Corporation competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Clorox Corporation business.

## **About Clorox Corporation**

The Clorox Company engages in the manufacture and marketing of consumer and institutional products in the United States and internationally.

### Segments

The company operates in four segments: Cleaning, Lifestyle, Household, and International.

#### Cleaning Segment

The Cleaning segment consists of laundry, home-care, professional products, and auto-care products marketed and sold in the United States. Products within this segment include laundry additives, including bleaches under the Clorox brand and Clorox 2 stain fighter and color booster; home-care products, primarily under the Clorox, Formula 409, Liquid-Plumr, Pine-Sol, S.O.S, and Tilex brands; natural cleaning and laundry products under the Green Works brand; and auto-care products primarily under the Armor All and STP brands.

#### Household Segment

The Household segment consists of charcoal, cat litter and plastic bags, wraps and container products marketed and sold in the United States. Products within this segment include plastic bags, wraps and containers under the Glad brand; cat litter products under the Fresh Step, Scoop Away, and Ever Clean brands; and charcoal products under the Kingsford and Match Light brands.

### Lifestyle Segment

The Lifestyle segment consists of food products, water-filtration systems, and filters marketed and sold in the United States and natural personal care products. Products within this segment include dressings and sauces, primarily under the Hidden Valley and K C Masterpiece brands; water-filtration systems and filters under the Brita brand; and natural personal care products under the Burt's Bees brand.

### International Segment

The International segment consists of products sold outside the United States, excluding natural personal care products. These products include home-care, laundry, auto-care, water filtration, charcoal and cat litter products, dressings and sauces, plastic bags, wraps and containers, and insecticides, which are sold under the Clorox, Javex, Glad, PinoLuz, Ayudin, Limpido, Clorinda, Poett, Mistolin, Lestoil, Bon Brill, Nevex, Brita, Armor All, STP, Green Works, Sabra, Pine-Sol, Agua Jane , Ever Clean, Chux, Kingsford, and Hidden Valley brands.

### Markets

The company's products are sold within the United States to mass merchandisers, warehouse clubs, dollar, military, and other types of retail stores; and to grocery stores and grocery wholesalers. Within the United States, the company also sells institutional, janitorial, healthcare, and food-service versions of its products through distributors, as well as natural personal care products through the Internet. Outside the United States, it sells products to the retail trade through subsidiaries, licensees, distributors, and joint-venture arrangements with local partners.

### Customers

The company's major customer includes Wal-Mart Stores, Inc.

## History

The Clorox Company was founded in 1913.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
