Abstracts

Coffee Holding Co.Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Coffee Holding Co.Inc. and its competitors. This provides our Clients with a clear understanding of Coffee Holding Co.Inc. position in the [Food and Beverages](#) Industry.

The report contains detailed information about Coffee Holding Co.Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Coffee Holding Co.Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Coffee Holding Co.Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Coffee Holding Co.Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Coffee Holding Co.Inc. business.

About Coffee Holding Co.Inc.

Coffee Holding Co., Inc. is an integrated wholesale coffee roaster and dealer in the United States. The company's products can be divided into three categories: wholesale green coffee, private label coffee, and branded coffee. Its private label and branded coffee products are sold throughout the United States and Canada to supermarkets, wholesalers, and individually owned and multi-unit retail customers.

Products

Wholesale Green Coffee: The company sells green coffee beans to small roasters and coffee shop operators located throughout the United States and carries approximately 90 different varieties. Specialty green coffee beans are sold unroasted, direct from warehouses to small roasters and gourmet coffee shop operators, which then roast the beans themselves. The company sells from as little as one bag (132 pounds) to a full truckload (44,000 pounds) of specialty green coffee beans, depending on the size and need of the customer.

Private Label Coffee: The company roasts, blends, packages, and sells coffee under private labels for companies throughout the United States and Canada. The company's private label coffee is sold in cans, brick packages, and instants in various sizes. As of

October 31, 2009, the company supplied coffee under approximately 50 different labels to wholesalers and retailers. The company produces private label coffee for customers who desire to sell coffee under their own name.

Branded Coffee: The company roasts and blends its branded coffee according to its own recipes and package the coffee at its facilities in La Junta, Colorado and Brecksville, Ohio. The company then sells the packaged coffee under its brand labels to supermarkets, wholesalers, and individually-owned stores throughout the United States.

The company's branded coffees are: Café Caribe is a specialty espresso coffee that targets espresso coffee drinkers and, in particular, the Hispanic consumer market; S&W is an upscale canned coffee and includes Premium, Premium Decaf, French Roast, Colombian, Colombian Decaf, Swiss Water Decaf, Kona, Mellow'd Roast and IL CLASSICO lines; Café Supremo is a specialty espresso that targets espresso drinkers of all backgrounds and tastes; Don Manuel is produced from the Colombian coffee beans; Fifth Avenue is a blended coffee; Via Roma is an Italian espresso targeted at the traditional espresso drinker; Il CLASSICO is an S&W brand espresso product; and Entenmann's line of coffee products consists of three canned coffees and six different bagged coffees, each of which is made from Arabica specialty coffee beans.

Other Products

The company also offers trial-sized mini-brick coffee packages; specialty instant coffees; instant cappuccinos and hot chocolates; and tea line products.

Customers

The company sells its private label and its branded coffee to retail and wholesale customers in the United States. The company sells wholesale green coffee to Green Mountain Coffee Roasters (GMCR).

Competition

The company competes with Massimo Zanetti Beverage; Kraft General Foods, Inc. (owner of the Maxwell House brand); Smuckers (owner of the Folgers brand); and Massimo Zanetti Beverage which also markets specialty coffee in addition to non-specialty coffee.

History

Coffee Holding Co., Inc. was founded in 1971.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
