The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Coinstar Inc. business.

## **About Coinstar Inc.**

Coinstar, Inc. provides automated retail solutions primarily in the United States, Canada, Puerto Rico, the United Kingdom, Mexico, and Ireland.

The company's offerings in automated retail include its Coin and DVD businesses. Its Coin services consist of self-service coin-counting kiosks where consumers can convert their coin to cash, a gift card or an e-certificate, among other options. Its DVD services consist of self-service DVD kiosks where consumers can rent or purchase movies. Its products and services also include money transfer services and electronic payment (E-payment) services.

### **Coin services**

The company owns and operates the multi-national fully automated network of self-service coin-counting machines across the United States, Canada, Puerto Rico, Ireland and the United Kingdom.

The company owns and services all of its coin-counting machines, providing a convenient and trouble free service to retailers. Consumers feed loose change into the machines, which count the change and then dispense vouchers or, in some cases, issue E-payment products, at the consumer's election. The company owns and

operates approximately 19,200 coin-counting machines in the United States, Canada, Puerto Rico, Ireland, and the United Kingdom.

#### DVD services

Through its subsidiaries Redbox and DVDXpress the company offers self-service DVD rentals through 22,400 kiosks where consumers can rent or purchase movies. Its DVD kiosks are installed primarily at grocery stores, mass retailers, drug stores, restaurants, and convenience stores. Consumers use a touch screen to select their DVD, swipe a valid credit or debit card, and receive their movie(s).

The company's DVD kiosks are available in all states in the continental United States, Puerto Rico and the United Kingdom. It offers its consumers a convenient home entertainment solution.

#### Money Transfer services

Through its acquisitions of Coinstar Money Transfer (CMT) and GroupEx, the company offers money transfer services primarily in the United Kingdom, other European countries, North America, and Central America.

The company offers E-payment services, including activating and reloading value on prepaid wireless accounts, selling stored value cards, loading and reloading prepaid debit cards and prepaid phone cards, selling prepaid phones and providing payroll card services. It offers various E-payment services in the United States and the United Kingdom through 25,000 point-of-sale terminals, 300 stand-alone E-payment kiosks and 12,500 E-payment-enabled coin-counting machines in supermarkets, drugstores, universities, shopping malls, and convenience stores.

#### Acquisitions and dispositions

In February 2009, the company purchased the remaining outstanding interests of Redbox Automated Retail, LLC from GetAMovie, Inc and other minority interest holders.

In September 2009, the company sold its subsidiaries comprising its Entertainment Business (Entertainment Business) to National Entertainment Network, Inc.

#### History

Coinstar, Inc. was founded in 1991.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
