The Commander Resources Ltd. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Commander Resources Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Commander Resources Ltd. business.

### **About Commander Resources Ltd.**

Commander Resources Ltd., an exploration stage company, engages in the exploration and development of mineral properties.

Baffin Island Properties, Nunavut

The Baffin Island Properties consists of two separate properties named Qimmiq and Bravo Lake, subject to two separate option agreements, one with BHP Billiton Diamonds Inc. (BHP Billiton) and the other with Xstrata Nickel (Xstrata), a business unit of Xstrata Canada Corporation.

In 2008, the company entered into an agreement with Global Resources Corporation Pty Ltd. (GRC), providing GRC the option to earn a 100% interest in the non-gold mineral rights of the Baffin Island Properties (gold, diamond and uranium dominant resources are excluded from this agreement).

Qimmiq: The company has an option agreement with BHP Billiton to explore for gold on 50,000 hectares of Nunavut Tunngavik Incorporated (NTI) leases on Baffin Island, Nunavut. Under the option agreement, the company may earn 50% of BHP Billiton's exploration rights.

**Bravo Lake:** The company has an option agreement with Xstrata to explore for gold, diamonds, and other metals on certain mineral claims on Baffin Island, Nunavut. The company may earn a 100% interest in Xstrata's exploration rights.

**Labrador Nickel Properties (South Voisey's Bay)**

**Adlatok 1:** The company has a 72.7% interest in the Adlatok 1 property.

**Sadie:** The company owns a 100% interest in the Sadie property.

**Sally:** The company owns a 100% interest in the Sally property.

**Sarah Lake:** The company owns a 48.2% interest in the Sarah Lake property. Donner Metals Ltd. (Donner Metals) owns 51.8% and is the operator of the property.

**Other properties**

The company owns several other properties in Canada in which it holds interests ranging from 10% to 100%.

**Storm Property, Nunavut:** The company owns three prospecting permits.

**Despinassy, Quebec:** In 2008, the company reported that it had entered into a letter of intent (LOI) to sell its 24.5% participating interest in the property to majority partner Alto Ventures.

**Hermitage:** The company owns 100% of the Blue Hills and White Bear properties. In 2005, the company completed a second option agreement to earn a 100% interest in the Couteau Lake Property. It also owns an additional 1,600 claims by staking.

**Strickland:** In 2006, the company staked the Strickland Property, 147 claims southwest of the Hermitage property. It has an option agreement (Quinlan Option) to purchase a small claim block located in the middle of its wholly owned Strickland Property.

**Hermitage East and West:** The company owns 100% of the properties.

**Cochrane Pond, Newfoundland:** The Property is owned 50% by the company and 50% by Bayswater Uranium Corporation under a Joint Venture Agreement. CPJV has an

agreement with Global Gold Uranium LLC (Global Gold Uranium), a wholly owned subsidiary of Global Gold Corporation (Global Gold) providing Global Gold Uranium the option to earn a 60% interest in the Cochrane Pond Property (the Property). Global Gold Uranium may earn an initial 51% working interest in the Property.

Olympic & Rob, Yukon: The company owns 100% of the Olympic and Rob properties subject to a 1% NSR registered to Blackstone Ventures Inc. on the Rob property.

Abe, Pal, Aten, Mate and Tut, British Columbia: The company owns a 100% interest in the properties located within the Quesnel Trough of British Columbia.

Tam/Misty, British Columbia: The company owns a 10% carried interest in the property.

Green Bay, Newfoundland: The company holds a 100% interest in the Green Bay property.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
