The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Commercial Bancshares, Inc. business.

About Commercial Bancshares, Inc.

Commercial Bancshares, Inc. operates as the holding company for The Commercial Savings Bank, which provides retail and commercial banking services in Ohio.

The company conducts its operations through its main office located in Upper Sandusky, Ohio; and branches located in Wyandot, Carey, Harpster, Findlay, Marion, Arlington, and Hancock.

The company's subsidiary, Commercial Financial and Insurance Agency, LTD (Commercial Financial), sells non-deposit investment products and other selected financial and insurance products and services. It obtains an ownership interest in Beck Title Agency, Ltd.

Lending Activities

The company's loan portfolio comprises commercial, consumer and real estate lending, including installment loans, and safe deposit and night depository facilities. It grants residential, installment, and commercial loans to customers located primarily in the Ohio counties of Wyandot, Marion, and Hancock.

Commercial loans are primarily variable rate and include operating lines of credit and term loans made to small businesses. Such loans are secured by business assets, such as equipment and inventory, and by the business owner's personal residence.

Commercial real estate loans are primarily secured by borrower-occupied business real estate, these loans carry adjustable interest rates.

Residential real estate loans are made with primarily variable rates and are secured by the borrower's residence. Such loans are made based on the borrower's ability to make repayment from employment and other income.

Construction loans are secured by residential and business real estate that primarily would be borrower-occupied upon completion.

Installment loans to individuals include loans secured by automobiles and other consumer assets, including second mortgages on personal residences. Loans secured by automobiles are generated both by direct application from the customer and from its purchase of indirect retail installment contracts from the dealers.

Investment Portfolio

As of December 31, 2009, the company's investment portfolio included the U.S. treasury and U.S. government agency securities; obligations of states and political subdivisions; mortgage-backed securities; and equity investments.

Deposits

The company's deposit products include acceptance of deposits for demand, savings and time accounts, individual retirement accounts (IRAs), and servicing of such accounts.

History

Commercial Bancshares, Inc. was founded in 1920.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
