## Abstracts

CompX International Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between CompX International Inc. and its competitors. This provides our Clients with a clear understanding of CompX International Inc. position in the [Commercial Services and Supplies](#) Industry.

The report contains detailed information about CompX International Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for CompX International Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The CompX International Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes CompX International Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of CompX International Inc. business.

### **About CompX International Inc.**

CompX International, Inc. manufactures and sells security products, precision ball bearing slides, and ergonomic computer support systems used in the office furniture, transportation, postal, tool storage, appliance, and various other industries. The company also manufactures stainless steel exhaust systems, gauges, and throttle controls for the performance marine industry.

#### Segments

The company's segments include Security Products, Furniture Components, and Marine Components.

#### Security Products

This segment manufactures locking mechanisms and other security products for sale to the postal, transportation, office and institutional furniture, toolbox, banking, vending, general cabinetry, and other industries. The company's security products are used in various applications, including ignition systems, mailboxes, toolboxes, vending and gaming machines, parking meters, electrical circuit panels, storage compartments,

office furniture, and medical cabinet security.

These products include disc tumbler locks which provide moderate security and generally represent the lowest cost lock to produce; pin tumbler locking mechanisms, used in applications requiring higher levels of security, including KeSet high security system, which allows the user to change the keying on a single lock 64 times without removing the lock from its enclosure; and eLock electronic locks, which provide networked security and audit trail capability for drug storage and other valuables through the use of a proximity card, magnetic stripe or keypad credentials.

### Furniture Components

This segment manufactures a line of precision ball bearing slides and ergonomic computer support systems for use in applications, such as computer related equipment, appliances, tool storage cabinets, imaging equipment, file cabinets, desk drawers, automated teller machines and other applications.

These products include patented Integrated Slide Lock, which allows a file cabinet manufacturer to reduce the possibility of multiple drawers being opened at the same time; patented adjustable Ball Lock which reduces the risk of heavily-filled drawers, such as auto mechanic toolboxes, from opening while in movement; Self-Closing Slide, which is designed to assist in closing a drawer and is used in applications, such as bottom mount freezers; articulating computer keyboard support arms, along with its patented LeverLock keyboard arm, which is designed to make ergonomic adjustments to the keyboard arm easier; CPU storage devices which minimize adverse effects of dust and moisture on desktop computers; and complementary accessories, such as ergonomic wrist rest aids, mouse pad supports and flat screen computer monitor support arms.

### Marine Components

This segment manufactures and distributes marine instruments, hardware, and accessories for performance boats. Its specialty marine component products are components designed to operate within precise tolerances in the highly corrosive marine environment. These products include original equipment and aftermarket stainless steel exhaust headers, exhaust pipes, mufflers and other exhaust components; gauges, such as GPS speedometers and tachometers; controls, throttles, steering wheels and other billet accessories; and dash panels, LED lighting, rigging and other accessories.

## International Operations

The company has substantial operations and assets located outside the United States, principally Furniture Component operations in Canada and Taiwan.

## History

CompX International, Inc. was founded in 1993.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
