Abstracts

Consumer Portfolio Services, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Consumer Portfolio Services, Inc. and its competitors. This provides our Clients with a clear understanding of Consumer Portfolio Services, Inc. position in the Industry.

The report contains detailed information about Consumer Portfolio Services, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Consumer Portfolio Services, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Consumer Portfolio Services, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Consumer Portfolio Services, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Consumer Portfolio Services, Inc. business.

About Consumer Portfolio Services, Inc.

Consumer Portfolio Services, Inc., a specialty finance company, engages in purchase and servicing of retail automobile contracts originated primarily by franchised automobile dealers and by select independent dealers in the United States in the sale of new and used automobiles, light trucks, and passenger vans.

The company, through its automobile contract purchases, provides indirect financing to the customers of dealers who have limited credit histories, low incomes or past credit problems referred to as sub-prime customers. It serves as an alternative source of financing for dealers, facilitating sales to customers who otherwise might not be able to obtain financing from traditional sources, such as commercial banks, credit unions and the captive finance companies affiliated with major automobile manufacturers.

The company also purchases automobile contracts with the intention of financing them on a long-term basis through securitizations. It services its automobile contracts from its California headquarters and from three servicing branches in Virginia, Florida, and Illinois.

The company offers seven different financing programs to its dealership customers, and prices each program according to the relative credit risk.

First Time Buyer: This program accommodates an applicant who has limited significant past credit history, such as a previous auto loan.

Mercury / Delta: This program accommodates an applicant who may have had significant past non-performing credit, including derogatory credit.

Standard: This program accommodates an applicant who may have significant past non-performing credit, and who has also exhibited performing credit in their history.

Alpha: This program accommodates applicants who may have a discharged bankruptcy, but who have also exhibited performing credit. In addition, the program allows for homeowners who may have had other significant non-performing credit in the past.

Alpha Plus: This program accommodates applicants with past non-performing credit, but with a stronger history of performing credit, including auto related credit, and higher incomes than the Alpha program.

Super Alpha: This program accommodates applicants with past non-performing credit, but with a somewhat stronger history of performing credit, including auto related credit, and higher incomes than the Alpha Plus program.

Preferred: This program accommodates applicants with past non-performing credit, but who meet a certain minimum FICO score threshold. Other requirements include a somewhat stronger history of performing credit than the Super Alpha program.

Competition

The company competes with General Motors Acceptance Corporation, Ford Motor Credit Corporation, Chrysler Finance, and Nissan Motors Acceptance Corporation.

History

Consumer Portfolio Services, Inc. was founded in 1991.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
