term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Converge Global Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Converge Global Inc. business.

### **About Converge Global Inc.**

Converge Global Inc (the Company) was incorporated in the State of Utah in 1985. The Company's business had been focused in the electronic commerce (e-commerce) industry, and it sought to develop specialty websites catering to niche market segments, as well as building a market that would provide complete e-commerce solutions to other businesses. However, its efforts proved unsuccessful, and it has discontinued development and operations.

On March 25, 2002, the company acquired all of the issued and outstanding shares of TeleWrx, Inc., a Florida corporation (Telewrx), a formerly unaffiliated development stage entity that intends to specialize in the sale and marketing of telecommunications products and services through the utilization of network marketing.

#### **Business of Telewrx**

TeleWrx intends to offer residential and small business long-distance, Wireless long-distance, Internet dialup (56K), calling cards, toll-free service, wireless services including WAP (wireless application protocol) devices and enhanced services such as "follow me" and nationwide "one number" services.

TeleWrx recently signed an exclusive sales and marketing agreement with Orbit Canada (Orbit) to offer Orbit's VOIP (voice over internet protocol) long distance service, as well as, Internet dialup in the U.S. and Canada. TeleWrx is presently negotiating an agreement to become an agent for a nationwide wireless service. Additionally, TeleWrx is negotiating an agreement with Unified Arts LLC, whereby Unified Arts LLC will provide telecommunication, wireless and web-based technologies which will allow users to access and control all types of messages from almost any communications device. Users can direct all calls to any cell phone, home phone, business phone or to all phones to ensure a call does not get missed. All messages can be accessed from a centralized mailbox by phone or through the Internet.

TeleWrx expects to initially offer the following services: residential and small business long distance (VoIP), calling cards (VoIP), FREE unlimited Internet Access, wireless services and enhanced services such as "follow me" and "one number."

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
