Such information creates your awareness about principal trends of Core-Mark Holding Company, Inc. business.

About Core-Mark Holding Company, Inc.

Core-Mark Holding Company, Inc. operates as a wholesale distributor of packaged consumer products to convenience retail stores in the U.S. and Canada.

The company offers retailers the ability to participate in manufacturer and company-sponsored marketing programs, merchandising and product category management services, as well as the use of information systems that are focused on minimizing retailers' investment in inventory.

Products

The company distributes a line of national and private label convenience store products to approximately 24,000 customer locations in all 50 states of the United States and five Canadian provinces. The products the company distributes include cigarettes, tobacco, candy, snacks, fast food, groceries, fresh products, dairy, non-alcoholic beverages, fresh produce, dairy and bread, general merchandise, and health and beauty care products. The company services traditional convenience stores, as well as alternative outlets selling convenience products.

Customers and Distribution

The company's traditional convenience store customers include major national and super-regional convenience store operators, as well as multi- and single-store customers. Its alternative outlet customers comprise various store formats, including drug stores, grocery stores, liquor stores, cigarette and tobacco shops, hotel gift shops, military exchanges, college bookstores, casinos, movie theaters, hardware stores, and airport concessions. The company services approximately 24,000 customer locations in all 50 states of the U.S. and 5 Canadian provinces.

The company operates a network of 26 distribution centers across the U.S. and Canada, including two distribution centers that it operates as a third party logistics provider. It distributes approximately 42,000 SKUs (stock keeping units) of packaged consumable goods to its customers and also provides an array of information and data services that enable its customers to manage retail product sales and marketing functions.

Suppliers

The company main suppliers include Philip Morris and R.J. Reynolds.

Competition

The company competes with McLane Company, Inc., a subsidiary of Berkshire Hathaway, Inc.; The H.T. Hackney Company; Eby-Brown Company; GSC Enterprises, Inc.; Coca-Cola bottlers; Frito Lay; and Interstate Bakeries.

History

Core-Mark Holding Company, Inc. was founded in 1888.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
