The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Crown Media Holdings Inc. business.

About Crown Media Holdings Inc.

Crown Media Holdings, Inc., through its subsidiary, Crown Media United States, LLC, owns and operates pay television channels in the United States and Puerto Rico.

The company primarily operates the Hallmark Channel, the Hallmark Movie Channel, and the Hallmark Movie Channel HD that provide entertainment programming for adults and families.

The Hallmark Channel is a 24-hour television destination for family-friendly programming and produces original movies. The Hallmark Movie Channel is a 24-hour cable network allocated to offering viewers a collection of movies appropriate for the entire family. The Hallmark Movie Channel HD is simulcast alongside the Hallmark Movie Channel. The Hallmark Movie Channel offers a mix of Hallmark Channel original movies, classical theatrical films, and Hallmark Hall of Fame presentations. Its Channels are distributed in the United States of America and its territories and possessions, including Puerto Rico.

The Channels offer compelling stories, masterfully written, directed and produced with talented and recognized actors. The company has distribution agreements with pay television distributors.

The company distributes the Hallmark Channel through approximately 5,450 cable, satellite and other pay television distribution systems; and the Hallmark Movie Channel through approximately 800 such systems. As of December 31, 2009, the company had agreements with AT&T Inc. (U-verse), Cablevision, Charter, Comcast, Cox, DirecTV, Dish Network, Mediacom, the National Cable Television Cooperative, Time Warner, Verizon Communication (FiOS), and other pay television distributors, for the distribution of the Hallmark Channel. The company also has agreements with AT&T Inc. (U-verse), Cablevision, Charter, Comcast, Cox, Dish Network, DirecTV, National Cable Televisions Cooperative (NCTC), Time Warner, Verizon Communications (FiOS) and other select distributors, which give these distributors the right to distribute the Hallmark Movie Channel and the Hallmark Movie Channel HD. In addition, the company has agreements with telephone companies that have started to furnish video programming to consumers, including the National Rural Telecommunications Cooperative and AT&T.

Programming

The company's Channels offer a range of entertainment programming for adults and families, including television series, movies, miniseries, theatricals, romances, literary classics, and contemporary stories. Sources for programming on its Channels include programming licensed from Buena Vista Television, CBS Television Distribution, Hallmark Hall of Fame, Paramount Pictures, RHI Entertainment Distribution, Twentieth Television, Warner Bros., and other third party producers.

Target Markets

The company's primary target demographics are women aged 25 to 54 and adults aged 25 to 54. Its programming is targeted to adults, but is appropriate for viewing by the entire family, which is major to viewers, advertisers and affiliates.

Competition

The Hallmark Channel competes with other general entertainment programming from TNT, USA Network, A&E, TV Land, Lifetime, Oxygen, ABC Family and other similarly targeted channels.

History

Crown Media Holdings, Inc. was founded in 1999.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
