## **Abstracts**

Datatrend Services, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Datatrend Services, Inc. and its competitors. This provides our Clients with a clear understanding of Datatrend Services, Inc. position in the Industry.

The report contains detailed information about Datatrend Services, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Datatrend Services, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Datatrend Services, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Datatrend Services, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Datatrend Services, Inc. business.

### **About Datatrend Services, Inc.**

Datatrend Services Inc (the Company) was incorporated in New York in 1985 under the name of E & C Video Productions, Inc. The company's name was changed to Star Classics, Inc. in 1987 and then to Star Mark, Inc. in 1991. Effective in March of 1993, the Company changed its name to Babystar Inc. and was reincorporated in the state of Delaware. On November 14, 1995 the stockholders voted to approve a change of name from Babystar, Inc to Datatrend Services, Inc.

Acquisition of Datatrend, Inc: Effective on February 1, 1995, the Company acquired all of the capital stock of Datatrend, Inc (DTI) by merging a wholly owned subsidiary of the Company into DTI. DTI is a Massachusetts corporation incorporated under the laws of the Commonwealth of Massachusetts in April 1993. DTI is engaged in the wholesale and retail distribution of new, used and refurbished computer hardware and components. DTI is also engaged in the business of servicing the returns management needs of certain computer manufacturers and resellers. Substantially all of the Company's business operations are currently conducted by its wholly owned subsidiary, DTI.

### **Principal Products or Services**

The Company purchases and sells microcomputers, peripherals, components and accessories (collectively referred to as Products). The Company sells new, used and refurbished Products. The Company purchases completed new and used Products from numerous sources, including manufacturers and other re-sellers. The Products purchased consist of new Products, including end of life models, excess inventories, close outs and other such items. The Company also purchases incomplete, defective and returned products, which are refurbished or remanufactured in order to be resold for maximum value. The Company performs limited assembly, remanufacturing and refurbishing activities at its Braintree, Massachusetts and Memphis, Tennessee facilities and through certain other subcontractors. The Company has developed relationships with certain manufacturers whereby the company purchases large quantities of goods returned to the manufacturer by customers. The Company refurbishes and remarkets these Products through its distribution channels. The Company has been able to develop relationships with several large manufacturers, which has strengthened the Company's ability to obtain Products.

The Company also provides management services to manufacturers and resellers of certain Products. The Company's returns management services include consulting and services with respect to identifying and analyzing causes of returns, designing returns limitation programs and designing and instituting cost effective returns handling programs. The Company provides comprehensive returns management services, including, but not limited to, inbound audit of returned products, product reconditioning, product sanitization (retiring serial no, change model no etc), parts recycling and reclamation and other services relating to such programs such as data collection, analysis and reporting to assist in evaluating certain problems and trends in returned products. As a large part of this returns management service, the Company provides Product reconditioning services to manufacturers of computer products. The Company currently conducts its reconditioning operations at its Braintree, Massachusetts facility and also conducts certain reconditioning operations at a facility in Memphis, Tennessee.

### Major Customers

The Company's major customer is Damark International, Inc (Damark).

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
