Such information creates your awareness about principal trends of DCC plc business.

About DCC plc

DCC plc provides procurement, sales, marketing, and distribution services for the energy, IT, healthcare, food and beverage, and environmental markets. The company also provides business support services.

Segments

The company's operations are divided into five main business segments: DCC Energy, DCC SerCom, DCC Healthcare, DCC Food & Beverage, and DCC Environmental.

DCC Energy segment markets and sells liquefied petroleum gas and oil products for commercial/industrial, transport and domestic use in Britain and Ireland. DCC Energy also includes a fuel card services business.

DCC SerCom segment markets and sells a range of IT and consumer electronic products in Britain, Ireland, and Continental Europe to computer resellers, high street retailers, computer superstores, on-line retailers, and mail order companies. DCC SerCom also includes a supply chain management business.

DCC Healthcare segment markets and sells medical, surgical, laboratory, intravenous pharmaceutical, rehabilitation and independent living products to the acute care,

community care, and laboratory sectors in Britain and Ireland. DCC Healthcare is also a provider of contract manufacturing services to the health and beauty industry in Europe.

DCC Food & Beverage segment markets and sells food and beverages in Ireland and wine in Britain. These include healthy foods, snackfoods, fresh coffee, and wine to a range of catering, convenience store, food service, and multiple grocer customers. DCC Food & Beverage is also a provider of frozen food distribution in Ireland.

DCC Environmental segment provides a range of waste management and recycling services to the industrial, commercial, construction, and public sectors in Britain and Ireland.

Significant Events

The company has formed a new holding company, DCC Environmental Britain Limited that would own its British environmental operations.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
