Abstracts

Defense Industries International Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Defense Industries International Inc. and its competitors. This provides our Clients with a clear understanding of Defense Industries International Inc. position in the Aerospace and Defense Industry.

The report contains detailed information about Defense Industries International Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Defense Industries International Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Defense Industries International Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Defense Industries International Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Defense Industries International Inc. business.

About Defense Industries International Inc.

Defense Industries International, Inc., through its subsidiaries, engages in the manufacture and provision of personal military and civilian protective equipment. The company's products are used by military, law enforcement, border patrol enforcement, and other special security forces, corporations, non-governmental organizations, and individuals worldwide.

Products

The company targets its product at three principal markets: the international military and defense market, the civilian market, and the industrial/agriculture market.

The company's military products include body armor, bulletproof and stab-resistant clothing, combat vests, bomb disposal suits, battle pouch and combat harness units, flak jackets, ballistic helmets, dust protectors, padded coats, sleeping bags, weapon straps and belts, dry storage systems, liquid logistics products, ceramic and UHMW polyethylene ballistic plates, ballistic wall coverings, tents, vehicle covers, and vehicle armor kits. Its products under development include stab-resistant solutions,

polyethylene ballistic plates, and vehicle armor kits.

The company's second product group is intended for the civilian market, including law enforcement, border patrol enforcement, prison forces, special security forces, corporations, non-governmental organizations, and individuals worldwide. Its civilian market products include adaptations of military products, heavy-duty clothing, and other types of sporting and camping equipment and clothing including, tents and sleeping bags. This product group includes armor for VIP luxury cars.

The company's industrial/agriculture market products include special industrial fabrics and cloth tapes, as well as enclosures for temporary storage of agriculture products.

Suppliers

The company's products are made from raw materials produced in Israel and abroad including, specialized composite materials, such as Kevlar produced by DuPont Company, Twaron produced by Twaron Teijn Ltd., Dyneema produced by D.S.M. Ltd., and Spectra and Gold Flex produced by Honeywell.

Customers and Markets

The company has a worldwide customer base, including in the United States, Israel, the Mediterranean, Europe, South America, Africa, and Asia. Countries in which the company actively markets include Turkey, Chile, Mexico, Guatemala, India, Peru, Georgia, Australia, and Brazil. The primary end users of its products can be divided into three main groups: military defense and security forces, civilian defense customers, and civilian customers.

Military Defense and Security Forces: The company provides this group with personal military and protective equipment.

Civilian Defense Customers: This group includes members of civilian security forces such as law enforcement, prison forces, private security firms, airport security, personal bodyguards, and event security guards.

Civilian Customers: This group includes campers, hikers, pet owners, and horse owners.

Export Military Market: The company's customers in this market are military and law

enforcement organizations, primarily in South America, North America, and Europe.

Competition

The company's major competitor in sales to the Israeli Ministry of Defense is Rabintex. Internationally, its competitors in the defense market include companies, such as Point Blank, Safari Land of Ontario, California; Armor Holdings and A.B.A. in the United States; L.B.A. in England; Indigo in Spain; Systema Compositi in Italy; Hellenic Arms Industries in Greece; and Barman in Sweden.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?
Rare?
Costly to imitate?
Organized properly?
