The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Destination Television, Inc business.

About Destination Television, Inc

Destination Television, Inc. operates as a media production, promotion, and advertising company.

The company provides remote, custom edited content, and advertising delivery platforms to OOH (out-of-home) locations, as well as delivers national, regional, and local advertising and short format entertainment content. The company's digital signage networks broadcast first-run movie trailers and new music videos through its digital signage networks.

The company's primary business is creating and implementing out-of-home distribution network platforms to reach captive audience viewers, primarily in high traffic OOH leisure destinations. It provides proprietary advertising and marketing concepts and strategies, which it produces, as well as advertising content provided by it or its advertisers. Its digital network platforms allow for content that would be updated and changed remotely and is specific for each targeted demographic group, time of day, and monitor and measure frequency and rotation of those ads and messages. Its private television networks offer distribution opportunities to companies that are unable to advertise their products on conventional networks or cable television.

The company offers locations a turnkey solution, including hardware, software, location programmed content, entertainment, advertiser content, and television monitors to distribute its programming.

The company utilizes movie trailers of first-run motion pictures from the motion picture studios, including Twentieth Century Fox, Columbia Pictures, MGM, Warner Bros., Paramount Pictures, Dreamworks, and Universal, highlighting upcoming releases, and new music videos from the record labels, including Geffen, Universal Atlantic, Capitol, EMI, Epic, Electra, Def Jam, Island, J Records, and Maverick. The movie trailers, which are rated as suitable for general audiences, are supplied by EPK.TV, a division of DBS InteleStream, Fahlgren Entertainment, Inc., and Alliance, an Atlanta based entertainment oriented advertising and public relations agency.

History

The company was founded in 1961 under the name Magic Fingers, Inc. and changed its name to Magicinc.com in 1999. Further, it changed its name to Magic Media Networks, Inc. in 2002 and to Destination Television, Inc. in 2007.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
