Abstracts

Diamcor Mining Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Diamcor Mining Inc. and its competitors. This provides our Clients with a clear understanding of Diamcor Mining Inc. position in the Industry.

The report contains detailed information about Diamcor Mining Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Diamcor Mining Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Diamcor Mining Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Diamcor Mining Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Diamcor Mining Inc. business.

About Diamcor Mining Inc.

Diamcor Mining Inc., through its subsidiaries, engages in the acquisition, operation, exploration, and development of diamond based resource properties with a focus on the mining segment of the diamond industry. The company intends to supply rough diamonds to the worldwide market.

The company's subsidiaries include So Ver Mine (Pty) Ltd., Ongoza Mining and Exploration (Pty) Ltd., DMI Minerals South Africa (Pty) Ltd, DMI Diamonds South Africa (pty) Ltd., and Jagersfontain Diamond Mining Company (pty) Ltd.

So Ver Mine (Pty) Limited

The company's 100% owned South African subsidiary, So Ver Mine (Pty) Ltd., owns the land and mining rights.

DMI Minerals South Africa (Pty) Limited

The company owns a 70% majority interest in DMI Minerals South Africa (Pty) Ltd (DMI Minerals), with the remaining 30% interest held by the company's South African Black Economic Empowerment partner Nozala Investments (Pty) Ltd. The Krone-Endora

deposit consists of prospecting rights over the farms Krone 104 and Endora 66, both located adjacent to the De Beers Venetia Diamond Mine in the Limpopo Province of South Africa, which is based on De Beers' published production reports.

DMI Diamonds South Africa (Pty) Limited

The company's 100% owned South African Subsidiary, DMI Diamonds is used as the company's main corporate entity for supporting its South African projects, operations, initial exploration efforts, and the initial evaluation of all projects.

In September 2007, the company entered into an agreement in principle to acquire an initial 24% interest in the privately held South African company, Nerikets Properties (Pty) Ltd. (Nerikets) through its 100% owned South African subsidiary, DMI Diamonds South Africa (Pty) Ltd. Pursuant to the terms of the agreement, the company had an exclusive option to acquire the remaining 76% interest in Nerikets. Nerikets holds the prospecting rights permit for diamond exploration over a 3,606.44 hectare area known as Hardcastle located on the north bank of the Middle Orange River.

Jagersfontein Diamond Mining Company (Pty) Limited

The company holds a 100% ownership position in the South African subsidiary, Jagersfontein Diamond Mining Company (Pty) Ltd.

Ongoza Mining & Exploartion (Pty) Limited

The company held a 74% majority ownership of Ongoza Mining & Exploration (Pty) Ltd with the remaining 26% ownership residing with a previous Black Economic Empowerment partner, Pholo Mining & Exploration (Pty) Ltd.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
