Abstracts

Double Eagle Petroleum Co. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Double Eagle Petroleum Co. and its competitors. This provides our Clients with a clear understanding of Double Eagle Petroleum Co. position in the [Energy](#) Industry.

The report contains detailed information about Double Eagle Petroleum Co. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Double Eagle Petroleum Co.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Double Eagle Petroleum Co. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Double Eagle Petroleum Co. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Double Eagle Petroleum Co. business.

About Double Eagle Petroleum Co.

Double Eagle Petroleum Co., an independent energy company, engages in the exploration, development, production and sale of natural gas and crude oil, primarily in Rocky Mountain Basins of the western the United States.

The company's operations are focused on its two core development properties located in southwestern Wyoming. It has coal bed methane reserves and production in the Atlantic Rim area of the Eastern Washakie Basin and tight sands gas reserves and production in the Pinedale Anticline.

Reserves

As of December 31, 2009, the company had estimated proved reserves of 89.8 Bcf of natural gas and 419 MBbl of oil, or a total of 92.3 Bcfe.

Operations

As of December 31, 2009, the company owned interests in a total of 1,172 producing wells and had an acreage position of 359,830 gross acres (114,369 net), of which 218,555 gross acres (102,325 net) are undeveloped.

The Atlantic Rim Coal Bed Natural Gas Project

This play is a 40-mile long trend located in south central Wyoming, from the town of Baggs at the south end, to the town of Rawlins at the north end. The company has an interest in 50,937 gross acres (29,735 net acres) along the Atlantic Rim.

Catalina Unit: The Catalina Unit consists of 21,725 total acres (8,944 net acres) which the company operates. It has a 100% working interest in the Cow Creek Field.

Eastern Washakie Midstream Pipeline LLC: The company owns, through its wholly-owned subsidiary, Eastern Washakie Midstream Pipeline LLC, a 13-mile pipeline and gathering assets, which connect the Catalina Unit with the pipeline system owned by Southern Star Central Gas Pipeline, Inc.

Doty Mountain Unit: The Doty Mountain Unit is adjacent to and northeast of the Catalina Unit. As of December 31, 2009, the company owned a 16.85% interest of the PA in the Unit.

Sun Dog Unit: The Sun Dog Unit is adjacent to and east of the Catalina Unit. Anadarko operates the 23,468 acre unit in which the company owns 3,886 gross and 2,045 net acres of working interest. As of December 31, 2009, the company owned an 8.89% working interest of the PA in the Unit. As of December 31, 2009, there were 114 production wells within the Unit.

Other Acreage: The company owns interests in additional acreage in the Atlantic Rim.

The Pinedale Anticline in the Green River Basin of Wyoming

The Pinedale Anticline is in southwestern Wyoming, 10 miles south of the town of Pinedale. Questar operates 2,400 acres in the Mesa Unit in which the company holds a net acreage position of 110 acres. The Mesa Unit on the Pinedale Anticline includes 130 non-operated wells producing.

As of December 31, 2009, in the Mesa 'A' PA, there were 22 producing wells, in which the company held a 0.312% overriding royalty interest. Its net acre position is approximately 1.875 net acres under a gross of 600 acres in the 'A' Participating Area.

In the Mesa 'B' PA, where the company has an 8% average working interest in the

shallow producing formations and a 12.5% average working interest in the deep producing formations, there were 74 producing wells that produced 1,302 MMcfe in 2009. The company has a net acreage position of 64 net acres under a gross of 800 acres in the shallower formations in the 'B' Participating Area, and 100 net acres under a gross of 800 acres in the deep producing formations.

The Wind River Basin in Central Wyoming

The company has interests in 50,226 gross acres, (2,243 net acres), of leases in this Basin.

Madden Anticline

The Madden Anticline is located in central Wyoming, 65 miles west of the town of Casper. The company owns a 0.349% working interest in the Madden Sour Gas PA in the Madden Deep Unit and the Lost Cabin Gas Processing Plant. It has 504.74 gross acres (84.14 net acres) that are included in the 24,088 acre participating area. In total, it owns an approximate 16.67% working interest in 734.25 acres on the Madden Anticline that potentially could be included in the Madden Sour Gas PA.

The company also owns interests, which are restricted in depth and size, in approximately 12,000 additional acres on the Madden Anticline. Additionally, it operates and produces from one lower Fort Union well and one upper Fort Union well outside of the unit.

South Waltman: The South Waltman acreage is located approximately 15 miles southeast of the Madden Anticline. Double Eagle operates this property and owns an average working interest of 46%. As of December 31, 2009, the company drilled 2 wells within South Waltman; the Waltman 24-24 well and the Waltman 34-24 well.

The Moxa Arch and Other Areas in Southwest Wyoming

The company participates in developmental drilling on the Moxa Arch and other areas within southwest Wyoming. It has interest in a total of 368 wells in this area, 1 of which was drilled in 2009.

Customers

The company's natural gas and crude oil are marketed and sold primarily to purchasers

that have access to nearby pipeline facilities. The marketing of majority of its products is performed by a third-party marketing company, Summit Energy, LLC.

History

Double Eagle Petroleum Co. was founded in 1972.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
