About DST Systems Inc.

DST Systems, Inc. provides information processing and computer software services and products to the financial services industry (primarily mutual funds, broker/dealers and investment managers), telecommunications, video and utilities industries, the healthcare industry, and other service industries.

Segments

The company's operating segments include Financial Services; Output Solutions; and Investments and Other.

FINANCIAL SERVICES SEGMENT

The Financial Services Segment provides information processing and computer software services and products using proprietary software systems primarily to mutual funds, investment managers, insurance companies, healthcare providers, banks, brokers, financial planners, healthcare payers, real estate partnerships, third party administrators, and medical practice groups. The company's proprietary software systems include mutual fund shareowner, subaccount and unit trust recordkeeping systems for U.S. and international mutual fund companies; a defined-contribution participant recordkeeping system for the U.S. retirement plan market; investment management systems offered to U.S. and international investment managers and fund accountants; a business process management and customer contact system offered to mutual funds, insurance companies, brokerage firms, banks, healthcare payers, healthcare providers, cable television operators and mortgage servicing organizations; healthcare claims administration processing systems and services offered to providers of healthcare plans, third party administrators and medical practice groups; pharmacy claims processing systems offered to healthcare plans, insurance companies, third party administrators and pharmacy benefit managers; and an electronic file system offered to mutual fund companies, insurance companies and professional service (legal, accounting and others) firms.

U.S. Investment Recordkeeping Solutions

The company's U.S. Investment Recordkeeping Solutions comprises the following four product offerings: shareowner recordkeeping; broker subaccounting; retirement plan & participant recordkeeping; and distribution support solutions.

Shareowner Recordkeeping

The shareowner recordkeeping systems and services support open and closed-end mutual funds, Real Estate Investment Trusts (REITs), and various forms of tax advantaged savings vehicles. Included in tax-advantaged accounts are individual retirement accounts (IRAs), and educational savings plan accounts, which encompass both Coverdell and Section 529 college savings plan accounts.

The company's clients who utilize the shareowner recordkeeping platform are 'open-end' mutual fund companies, which obtain funds for investment by making a continuous offering of their shares. The proprietary system application for shareowner recordkeeping is TA2000. TA2000 performs functions, including processing purchases, redemptions, exchanges and transfers of shares; maintaining shareowner identification and share ownership records; reconciling cash and share activity; calculating and disbursing commissions to brokers and other distributors; processing dividends; reporting sales; and providing information for printing of shareowner trade confirmations, statements, and year-end tax forms. The system processes multiple classes of equity, fixed income, and money market funds. As of December 31, 2009, the company provided shareowner recordkeeping services for approximately 121.1 million shareowner accounts; and a subset of the registered accounts (46.3 million) were tax advantaged. DST serviced 26.8 million IRAs invested in mutual funds and 10.0 million accounts in an assortment of retirement accounts (SAR-SEP, Keogh and SIMPLEs). In addition, DST supported 9.5 million educational savings accounts, of which 8.7 million are Section 529 plan accounts.

Broker Subaccounting

The company provides mutual fund shareowner recordkeeping services to brokerage firms who perform subaccounting for mutual fund accounts that have been sold by the broker/dealer's financial advisors. It offers subaccounting services to broker/dealers on both a remote (ASP) and full service (BPO) basis. A broker/dealer pro
