Ducommun Inc. Due Diligence Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Ducommun Inc. and its competitors. This provides our Clients with a clear understanding of Ducommun Inc. position in the **Aerospace and Defense Industry**.

- The report contains detailed information about Ducommun Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.
- Another part of the report is a SWOT-analysis carried out for Ducommun Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.
- The Ducommun Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.
- In the part that describes Ducommun Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.
- Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Ducommun Inc. business.

About Ducommun Inc.

Ducommun Incorporated, through its subsidiaries, designs, engineers, and manufactures aerostructure and electromechanical components and subassemblies, and provides engineering, technical and program management services principally for the aerospace industry. These components, assemblies and services are provided principally for domestic and foreign commercial and military aircraft, helicopter, missile, and space programs.

Domestic commercial aircraft programs include the Boeing 737NG, 747, 767, 777 and 787. Foreign commercial aircraft programs include the Airbus Industrie A330 and A340 aircraft, Bombardier business and regional jets, and the Embraer 145 and 170/190. Major military programs include the Boeing C-17, F-15 and F-18 and Lockheed Martin F-16 and F-22 aircraft, and various aircraft and shipboard electronics upgrade programs. Commercial and military helicopter programs include helicopters manufactured by Boeing (principally the Apache and Chinook helicopters), United Technologies, Bell, Augusta and Carson. The company also supports various unmanned space launch vehicle and satellite programs.

In December 2008, the company acquired DynaBil Industries, Inc. (DynaBil), a provider of titanium and aluminum structural components and assemblies for commercial and military aerospace applications.

PRODUCTS AND SERVICES

Ducommun operates in two business segments: Ducommun AeroStructures, Inc. (DAS), which engineers and manufactures aerospace structural components and subassemblies; and Ducommun Technologies, Inc. (DTI), which designs, engineers, and manufactures electromechanical components and subassemblies, and provides engineering, technical and program management services (including design, development, integration and test of prototype products) principally for the aerospace and military markets.

DAS provides aluminum stretch-forming, titanium and aluminum hot-forming, machining, composite lay-up, metal bonding, and chemical milling services principally for domestic and foreign commercial and military aircraft, helicopter and space programs. DTI designs and manufactures illuminated push button switches and panels, microwave and millimeterwave switches and filters, fractional horsepower motors and resolvers, and mechanical and electromechanical subassemblies, and provides engineering, technical, and program management services.

Components and assemblies are provided principally for domestic and foreign commercial and military aircraft, helicopter and space programs as well as selected nonaerospace applications. Engineering, technical and program management services are provided principally for weapons and missile defense systems.

Stretch-Forming, Hot-Forming and Machining

DAS supplies the aerospace industry with engineering and manufacturing of components using stretch-forming and hot-forming processes and computer-controlled machining. DAS designs and manufactures the tooling required for the production of parts in these forming processes. Certain components manufactured by DAS are machined with precision milling equipment, including three 5-axis gantry profile milling machines and seven 5-axis numerically-controlled routers to provide computer-controlled machining and inspection of complex parts up to 100 feet long.

Composites and Metal Bonding

DAS engineers and manufactures metal, fiberglass, and carbon composite aerostructures. DAS produces helicopter main and tail rotor blades, and adhesive bonded assemblies, including spoilers, winglets, and fuselage structural panels for aircraft.

Chemical Milling

DAS is a supplier of close tolerance chemical milling services for the aerospace industry. DAS offers production-scale chemical milling on aluminum, titanium, steel, nickel-base, and super alloys.

Switches and Related Components

DTI develops, designs, and manufactures illuminated switches, switch assemblies, keyboard panels, and edge lit panels, used in many military and commercial aircraft, helicopter, and space programs. DTI

manufactures switches and panels. DTI also develops, designs, and manufactures microwave and millimeterwave switches, filters, and other components used principally on commercial and military aircraft and satellites. In addition, DTI develops, designs, and manufactures high precision actuators, stepper motors, fractional horsepower motors, and resolvers principally for space and oil service applications, and microwave and millimeterwave products for certain non-aerospace applications.

Mechanical and Electromechanical Subassemblies

DTI is a manufacturer of mechanical and electromechanical subassemblies for the defense electronics and commercial aircraft markets. DTI has a fully integrated manufacturing capability, including manufacturing engineering, fabrication, machining, assembly, electronic integration, and related processes. DTI's products include radar enclosures, gyroscopes and indicators, aircraft avionics racks, and shipboard communications and control enclosures.

Engineering, Technical and Program Management Services

DTI (through its Miltec subsidiary) is a provider of missile and aerospace systems design, development, integration, and testing. Engineering, technical, and program management services are provided principally for advanced weapons systems and missile defense primarily for United States defense, space, and homeland security programs.

SALES AND MARKETING

Military components manufactured by the company are employed in front-line fighters, bombers, helicopters and support aircraft, as well as sea-based applications. Engineering, technical and program management services are provided principally for the United States defense, space, and homeland security programs.

CUSTOMERS

The company's major customers include Boeing, Raytheon, the United States government, and United Technologies.

History

Ducommun Incorporated was founded in 1849.

The above Company Fundamental Report is a half-ready report and contents are subject to change. It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.
