Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of The E. W. Scripps Company business.

## **About The E. W. Scripps Company**

The E. W. Scripps Company operates as a media company. The company has interests in television stations, newspapers, local news and information Web sites, and licensing and syndication.

The company's portfolio of locally focused media properties includes 10 TV stations (six ABC affiliates, three NBC affiliates, and one independent); daily and community newspapers in 13 markets and the Washington, D.C.-based Scripps Media Center, home of the Scripps Howard News Service; and United Media, the licensor and syndicator of Peanuts, Dilbert, and approximately 150 other features and comics.

### **Newspapers**

The company operates daily and community newspapers in 13 markets in the United States. All of its newspapers subscribe to the wire service. Its newspapers also operate Internet sites, offering users information, comprehensive news, user-generated content, advertising, e-commerce and other services. The company also sells advertising across all of its digital platforms. A relationship with zillow.com brings new online real estate ads to the company's newspapers.

## Television Stations

The company's television station group includes six ABC-affiliated stations, three NBC-affiliated stations and one independent station. Its television stations reach approximately 10% of the nation's television households. Nine of its television stations are affiliated with national television networks. In addition to network programming, the company's television stations produce their own programming and air programming licensed from different independent program producers and syndicators.

## Licensing and Other Media

Licensing and other media primarily include syndication and licensing of news features and comics. Under the trade name United Media, the company distributes news columns, comics and other features for the newspaper industry. Included among these features is 'Peanuts,' one of the strips in the comic art.

United Media owns and licenses worldwide copyrights relating to 'Peanuts,' and other properties for use on various products, including apparel and greeting cards, for promotional purposes and for exhibit on television and other media.

## Significant Events

In April 2010, Belo Corp., Cox Media Group, Inc., The E. W. Scripps Company, Fox, Gannett Broadcasting, Inc., Hearst Television, Inc., ION Television, Media General, Inc., Meredith Corp., Nation Broadcasting Corporation Public Company Limited, Post-Newsweek Stations, Inc. and Raycom Media, Inc. announced plans to form a standalone joint venture to develop a new national mobile content service.

## History

The E. W. Scripps Company was founded in 1878.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
