The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Eagle Financial Services Inc. business.

About Eagle Financial Services Inc.

Eagle Financial Services, Inc. operates as the bank holding company for Bank of Clarke County, which provides retail and commercial banking services primarily in northwestern Virginia.

The company has 11 full-service branches and 1 drive-through only facility. Its offices are located in Clarke County, Frederick County, and the City of Winchester. The company offers retail and commercial banking services, including demand, savings, time deposits, consumer, mortgage, and commercial loans. It offers branded credit cards through the financial institution. It also has a merchant services program that allows its commercial customers to accept credit card payments. The company operates 14 ATM locations in its trade area and issues both ATM cards and Debit cards to deposit customers.

The company's subsidiary, Bank of Clarke County, is a partner in Bankers Title Shenandoah, LLC, which sells title insurance, and is an investor in Virginia Bankers Insurance Center, LLC, which serves as the broker for insurance sales through its member banks.

Loan Portfolio

One-to-Four-Family Residential Real Estate Lending: The company offers one to four family residential real estate loans to its customers in its market area. In connection with residential real estate loans, the company requires title insurance, hazard insurance and, if applicable, flood insurance. In addition to traditional residential mortgage loans secured by a first or junior lien on the property, the company offers home equity lines of credit.

Commercial Real Estate Lending: Commercial real estate loans are secured by various types of commercial real estate in the company's market area, including multi-family residential buildings, commercial buildings and offices, small shopping centers, and churches. Commercial real estate loan originations are obtained through broker referrals, direct solicitation of developers, and continued business from customers.

Construction and Land Development Lending: The company makes local construction loans, primarily residential, land acquisition, and development loans. Majority of the construction loans are secured by residential houses under construction and the underlying land for which the loan was obtained.

Commercial and Industrial Lending: The company obtains appropriate collateral and personal guarantees from the borrower's principal owners and monitors the financial condition of the borrower.

Consumer Lending: The company offers various secured and unsecured consumer loans, which include personal installment loans, personal lines of credit, automobile loans, and credit card loans.

Deposits

The company's deposits include NOW accounts, money market accounts, time deposits, and regular savings accounts.

Investment Portfolio

The company's investment portfolio, as on December 31, 2009, included investments in obligations of the U.S. government corporations and agencies, mortgage-backed securities, corporate securities, equity securities, obligations of states and political subdivisions, and restricted securities.

History

Eagle Financial Services, Inc. was founded in 1881.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
