The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Eastern Virginia Bankshares Inc. business.

About Eastern Virginia Bankshares Inc.

Eastern Virginia Bankshares, Inc. operates as the holding company for EVB that provides personal and commercial banking products and services in Virginia.

The company operates 25 full service branches in eastern Virginia. It targets small to medium-sized businesses and consumers in its traditional coastal plain markets and the emerging suburbs outside of the Richmond and Greater Tidewater areas.

Operations

The company provides a range of personal and commercial banking services, including commercial, consumer, and real estate loans. It offers retail and commercial deposit products and fee-based services. Residential real estate loan originations come primarily from walk-in customers, real estate brokers and builders, and through referrals from EVB Mortgage, LLC. Commercial real estate loan originations are obtained through broker referrals, direct solicitation of prospects and continued business from customers.

Construction Lending

The company makes local construction and land acquisition and development loans. These loans are secured by residential houses and commercial real estate under construction and the underlying land associated with the project.

Commercial Business Loans

Commercial business loans typically are made on the basis of the borrower's ability to make repayment from employment and other income and are secured by real estate whose value tends to be ascertainable.

Commercial Real Estate Lending

The company offers various types of commercial real estate loans in the market area, including commercial buildings and offices, recreational facilities, small shopping centers and churches, and other secured commercial real estate loans.

One-to-Four-Family Residential Real Estate Lending

Residential one-to-four family mortgage loans include the company's major loan category.

Consumer Lending

The company offers various secured and unsecured consumer loans, including unsecured personal loans and lines of credit, automobile loans, boat loans, deposit account loans, installment and demand loans, credit cards, and home equity lines of credit and loans.

Deposits

The company's deposit products include demand deposits, checking accounts, savings deposits, money market accounts, time deposits, as well as certificates of deposits.

Investment Portfolio

As of December 31, 2009, the company's investment portfolio included obligations of U.S. government agencies; agency mortgage-backed securities; agency CMO securities; non agency collateralized mortgage obligations securities; state and political subdivisions; pooled trust preferred securities; Federal National Mortgage Association

and Federal Home Loan Mortgage Co preferred stock; and corporate securities.

History

Eastern Virginia Bankshares, Inc. was founded in 1910.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
