The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Educational Development Corp. business.

### **About Educational Development Corp.**

Educational Development Corporation operates as a trade publisher of a line of children's books in the United States. The company distributes children's books produced by Usborne Publishing Limited in the United Kingdom.

#### Divisions

The company sells children's books through two divisions, Home Business Division and Publishing Division.

#### The Home Business Division

The Home Business Division (Usborne Books at Home) distributes books nationwide through independent consultants who hold book showings in individual homes, and through book fairs, direct sales and Internet sales. It also distributes these titles to school and public libraries.

#### Publishing Division

The Publishing Division markets books to bookstores (including major national chains), toy stores, specialty stores, museums, and other retail outlets throughout the United States.

This division markets through commissioned trade representatives who call on book, toy, specialty stores and other retail outlets, as well as through in-house marketing by telephone to the trade. This division markets to approximately 5,000 book, toy and specialty stores.

## Products

The company, as the United States trade publisher of the Usborne line of books, offers approximately 1,500 different titles. Its books are interactive in nature, including its Touchy-Feely board books, jigsaw puzzle books, activity and flashcards, adventure and search books, art books, sticker books, and foreign language books. Its titles are also published in Spanish. The majority of the titles published by Kane/Miller Book Publishers originally were published in other countries in their native languages.

The company has a line of 'internet-linked' books, which allow readers to expand their educational experience by referring them to relevant non-Usborne Web sites. Its books include science and math titles, as well as chapter books and novels. It also produces and distributes 'Usborne Kid Kits', which combine an Usborne book with specialty items/toys that complement the information contained in the book.

## Competition

The company's school and library market faces competition from Scholastic Books for the book fair market.

## History

Educational Development Corporation was founded in 1965.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. ## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
