Electric & Gas Technology Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Electric & Gas Technology Inc. and its competitors. This provides our Clients with a clear understanding of Electric & Gas Technology Inc. position in the Heavy Machinery Industry.

- The report contains detailed information about Electric & Gas Technology Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.
- Another part of the report is a SWOT-analysis carried out for Electric & Gas Technology Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.
- The Electric & Gas Technology Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.
- In the part that describes Electric & Gas Technology Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.
- Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Electric & Gas Technology Inc. business.

About Electric & Gas Technology Inc.

Electric & Gas Technology, Inc., through its subsidiary, Reynolds Equipment Company (Reynolds), engages in the design and marketing of products for natural gas measurement, metering and odorization, primarily for municipalities and publicly owned utility companies. Materials consist of proprietary circuit boards.

The Company, through its other subsidiary, Logic Metals Technology, Inc. (LMT), provides precision sheet

metal fabrication and assembly for a customer base, including telecom and networking cabinetry, electrical controls and other functional and aesthetic sheet metal applications.

Segments

The Company, through its subsidiaries, operates in two distinct business segments: Utilities Products Segment and Contract Manufacturing Segment.

Utilities Products Segment – Reynolds

Products

Reynolds manufactures equipment used in the natural gas industry. Its primary products are known by the trade name 'RECOR' and include electronic pressure, temperature and volumetric instrumentation and accessories peripheral to gas measurement. Reynolds manufactures a line of electronic digital data recorders, as well as a traditional line of mechanical instrumentation including pressure, temperature and volumetric recording and indicating devices.

In addition, Reynolds provides engineering and equipment used to accomplish the odorization of natural gas. Reynolds has newly introduced an odorization system into the marketplace. The Company also introduced a line of outdoor enclosures for protecting instrumentation and controls used in the natural gas industry. These enclosures are manufactured by LMT, the Company's contract manufacturing subsidiary. Reynolds operates in the industry which supplies equipment for monitoring the transport and distribution of natural gas. This equipment is used to measure temperature, pressure, flow rate and other parameters of natural gas in pipelines.

Customers: Reynolds sells to natural gas utilities, pipeline and production companies both domestically and worldwide. Reynolds has a blue chip utility customer base.

Competition: Reynolds primary competitors include Mercury Instruments, Inc., Galvanic Science, Ltd. and YZ Industries.

Contract Manufacturing Segment - LMT

LMT operates as a contract supplier involving in the cutting punching, forming and assembly of products manufactured primarily from sheets of steel, aluminum, copper and other metals and materials, requiring fabrication and assembly.

Products

LMT assembles and/or fabricates various metal products. It builds electronic enclosures and equipment panels to customers' specifications. LMT has a concentration of business within the telecom and electronics industry. LMT serves primarily in the Dallas-Fort Worth, Texas metropolitan area markets, and has been expanded to include customers in various parts of the United States.

Customers: LMT's major customers are international telecom/electronics companies with manufacturing and assembly operations in the Dallas-Fort Worth, Texas metropolitan area, and international electronic assembly companies, servicing the telecom/electronics companies.

Competition: LMT's major competitors include Precision Metal, Humanetics and Karlee Manufacturing.

History

Electric & Gas Technology, Inc. was founded in 1967.

The above Company Fundamental Report is a half-ready report and contents are subject to change. It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.
