## **Abstracts**

B.S.D Crown Ltd Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between B.S.D Crown Ltd and its competitors. This provides our Clients with a clear understanding of B.S.D Crown Ltd position in the [Software and Technology Services](#) Industry.

The report contains detailed information about B.S.D Crown Ltd that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for B.S.D Crown Ltd. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The B.S.D Crown Ltd financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes B.S.D Crown Ltd competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of B.S.D Crown Ltd business.

### **About B.S.D Crown Ltd**

Emblaze Ltd. (the Company) and its subsidiaries provide solutions for rich-media delivery and associated services over wireless and broadband IP networks. The Company's products are marketed worldwide. The Company's products are marketed worldwide. The Company has five active subsidiaries: Orca Interactive Ltd. an Israeli corporation, Emblaze Semiconductor Ltd. an Israeli corporation, AlphaCell Wireless 2001 Ltd. an Israeli corporation, Emblaze Systems Inc. a U.S. corporation and Emblaze Systems U.K.

Emblaze Systems provides the hardware (servers) and software solutions enabling wireless operators to offer rich-media value added services to their subscribers.

All four of the Emblaze companies - Emblaze Systems, ORCA, Emblaze Semiconductor and AlphaCell - are built around the same technology, same vision, and deliver end-to-end solutions supporting rich media personal communication services over wireless and IP networks.

ORCA Interactive is the supplier of systems for broadband xDSL operators, empowering video on demand and interactive television applications. Orca systems are up, live and running in South Korea, Taiwan and Japan, serving many thousands of

homes.

Emblaze Semiconductor designs the VLSI and ASIC chip sets, and writes the software that powers the consumer gadgets and terminals to send and receive multimedia. Their chip sets had significant design wins with key handset manufacturers like Samsung, Telson and others.

AlphaCell designs, develops and manufactures next generation multimedia mobile phones working to a carrier's individual configuration specification. It is one of the few manufacturers that custom tailors a unique product. AlphaCell has major commercial deals in place with Carphone Warehouse and Orange Israel.

### Emblaze Systems

Established in 1994, Emblaze Systems is at the forefront of the introduction of rich media delivery to handheld and mobile devices.

### The Emblaze Mobile Media Solution

Emblaze Systems provides a customized, media centric, end-to-end solution for mobile media. Its solution comprises a set of products and services supporting the entire process of creating, managing and delivering mobile rich media services.

EMstudio is an authoring and publishing system for the creation of mobile media content. The system enables: Creation of video and audio clips for mobile streaming and download, in both 3GPP and Microsoft (WMT) formats; Live audio and video encoding; Integration with media editing tools for authoring content; Publishing created content to Content Management systems; Capture of media from external devices; and Scheduling and automated encoding.

EMcoder is a commercial solution for MMS service interoperability, achieved through advanced transcoding, based on real-time content and device recognition. Commercially deployed in numerous carrier sites, it is seamlessly integrated into any MMS environment, expanding the service content sources and the potential user base for the carrier.

From images & audio to video & MMS Slide show, the EMcoder™ converts media objects and messages as they are being sent. Content providers can publish content once and the end user can either choose a preferred media type or can receive media

with automatic optimal support.

EMplatform™ is a commercially deployed, 3GPP-compliant, rich media solution for management and delivery of video content services. Its main functionalities include:

#### Media Management:

Service management - provisioning, user and session management, usage reporting, rating and charging, and application of Digital Rights Management (DRM) rules; Content management - import, categorization, definition and distribution of media assets; Interfaces for value added applications developed by third parties; and Service creation engines for pull and push video services.

Media Delivery: EMplatform provides advanced video streaming and download delivery in multiple formats and codecs, from 3GPP-compliant MPEG4 through Microsoft video formats, to cutting edge H.264 codecs. EMplatform enables wide and flexible video content distribution, while ensuring optimal end-user experience.

EMplayer is a client-

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
