The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Emerging Media Holdings, Inc. business.

About Emerging Media Holdings, Inc.

Emerging Media Holdings Inc., through its subsidiaries, engages in radio and television broadcasting in the Republic of Moldova. The company supplies infrastructure projects to highways and roads throughout Romania using a road base material. It produces and broadcasts television programs and news reports primarily for the Moldovan viewing audience.

Media Operations

Products

The company's products consist of programs produced by the Russian TV channels, NTV and TNT and in-house production programs. NTV is a news channel. NTV is the broadcasting company in Russia that on a daily basis prepares approximately 10 news programs. TNT channel is directed at audiences aged 18-45, which are of commercial interest for advertisers. Focusing on entertainment, 'TNT-Bravo' broadcasts an optimal mix of programs that are of interest to its target audience. The split of the two TV channels content for different types of viewers allows the company to find the solutions to secure brand advertisers with the targeted audience.

TV7 channel also produces its own news and analytical programs, such as 'Today in Moldova' in the Russian language; 'Cotidian' in the Romanian language; 'Cotidian Exclusive' in the Romanian language; Weather forecast in Russian and Romanian languages; 'Public Studio' in Russian language; and 'Aim to Europe' in Romanian language. The company sells advertising time to third parties for further resale to advertisers.

Genesis Construction Operations

The company owns 80% of the equity in SC Genesis International SA (Genesis), which is a construction and development company. Genesis operates primarily in Romania and has, as its principal business, the construction of roads and highways. Other secondary activities include surface and underground railway construction, other special construction projects, relocation services, and merchandise transportation.

The company owns various types of equipment for its different construction activities. The equipment it owns consists of an ultramodern ERMONT asphalt plant, a cold asphalt MX30 plant, three asphalt recycling installations Marini type (ART), three Breining installations of slurry-seal spreading, seven asphalt pavers (Vogele, Dynapac, ABG, and Marini), seven surface miners (Wirtgen and Marini), six compaction rollers (Bomag, Dynpac, Bitelli, Simeza, and Stavostroj), excavators, dump trucks, and vehicles for transporting workers. The company carries social insurance for its employees and vehicle insurance for equipment owned by company.

Strategic Alliances

In October 2010, Emerging Media Holdings, Inc. announced the completion of a joint venture agreement with Zingan.com, the parent company of allMoldova.com. Emerging Media Holdings, Inc. through an agreement with Zingan.com, the parent company of allMoldova.com, intends to merge Television Advertising and Online Advertising into one complete offering.

History

Emerging Media Holdings, Inc. was founded in 1998.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
