Abstracts

Endeavour Silver Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Endeavour Silver Corp. and its competitors. This provides our Clients with a clear understanding of Endeavour Silver Corp. position in the Industry.

The report contains detailed information about Endeavour Silver Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Endeavour Silver Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Endeavour Silver Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Endeavour Silver Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Endeavour Silver Corp. business.

About Endeavour Silver Corp.

Endeavour Silver Corp., a mining company, engages in the evaluation, acquisition, exploration, development, and exploitation of precious metal properties. The company produces silver-gold from its underground mines at Guanacevi and Guanajuato in Mexico.

Guanacevi Mines Project, Durango State, Mexico

The Guanacevi Mines project is located within the Municipality of Guanacevi in the State of Durango, Mexico. Endeavour Silver holds the Guanacevi Mines project through its 100% owned Mexican subsidiary Endeavour Gold Corporation S.A. de C.V. (Endeavour Gold). Endeavour Gold holds the project through its two 100% owned subsidiaries Minera Plata Adelante S.A. de C.V. (Minera Plata Adelante) and Refinadora Plata Guanaceví S.A. de C.V. (Refinadora Plata Guanacevi). The project consists of 38 mineral concessions.

In 2009, Endeavour Silver entered into a mining exploration agreement with Minerales Monte Blanco S.A. de C.V. (Minerales Monte Blanco), represented by Sergio Enrique Silva Franco, on the El Porvenir Cuatro and La Brisa concessions totaling approximately 55.5518 hectares.

In February, 2010, Endeavour Silver exercised its option to purchase the El Porvenir Cuatro and La Brisa properties. Endeavour Silver has acquired a 100% interest in the Porvenir Cuatro and La Brisa properties.

Guanajuato Mines Project, Guanajuato State, Mexico

The Guanajuato Mines project consists of three operating mines in two areas. Mina Cebada is located approximately 5 kilometers north of the city of Guanajuato. The Bolanitos mine and the processing plant are situated approximately 5 kilometers west of Cebada. The Golondrinas mine is 3.5 kilometers to the southwest of Cebada. The company has a 100% interest in the Guanajuato Mines project. The Guanajuato Mines project consists of 13 properties which are not all contiguous and vary in size for a total of 2,071 hectares.

Parral Project (El Cometa Property), Chihuahua State, Mexico

The El Cometa property consists of 1 approximately 19.6 hectare mineral concession. Endeavour Silver acquired the El Cometa deposit and property and it is part of Endeavour Silver's Parral exploration project.

The El Cometa concession was held under a mining option agreement (Contrato de Explotacion y Opcion Minera) by Minera Plata Adelante, S.A. de C.V. (Minera Plata), a wholly-owned subsidiary of Endeavour Silver. In 2009, Minera Plata exercised its purchase option by making the final option payment. Minera Plata holds a 100% undivided interest in the El Cometa concession. In 2009, Endeavour Silver announced that it had acquired an option to purchase the San Juanico property, located adjacent to the El Cometa concession.

The San Juanico mine property includes the Ampliacion de San Juanico, Dolores and El Jazmin concessions and covers an area of 17.1157 hectares. The Parral project consists of 4 mineral concessions. The mineral concessions vary in size and are nearly contiguous, with a total property area of 36.6693 hectares.

History

The company was founded in 1981. It was formerly known as Endeavour Gold Corp. and changed its name to Endeavour Silver Corp. in 2004.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
