Abstracts

Environmental Service Professionals, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Environmental Service Professionals, Inc. and its competitors. This provides our Clients with a clear understanding of Environmental Service Professionals, Inc. position in the Industry.

The report contains detailed information about Environmental Service Professionals, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Environmental Service Professionals, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Environmental Service Professionals, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main

financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Environmental Service Professionals, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Environmental Service Professionals, Inc. business.

About Environmental Service Professionals, Inc.

Environmental Service Professionals, Inc., through its subsidiaries, provides various inspection services to address mandated energy certification, construction defects, moisture, and other environmental issues in commercial and residential buildings in the United States.

Subsidiaries

Environmental Safeguard Professionals, Inc.: Safeguard has developed an all inclusive multi-disciplined inspection process that is focused on reducing and mitigating risks to protect homeowners, retail properties, builders, lenders, and mortgage brokers/agents relating to state mandated energy certification, construction defects, moisture, and other environmental issues. The branding of this program is called the Certified Environmental Home Inspector program (CEHI program). The CEHI program represents the keystone for environmental inspection services to address mandated energy certification, construction defects, moisture, and other environmental issues in commercial and residential buildings.

The EcoCheck Inspection program services support the residential real-estate mortgage, banking, and insurance industries in their ability to manage losses through moisture related claims. One of the programs the company provides as a part of the CEHI program is ESP's Healthy Assurance Certification (HAC). After an EcoCheck Inspection has been conducted by one of ESP's CEHIs, a subject property that passes inspection receives a HAC.

The company also offers a pro-active subscription-based 10-year annual maintenance program called the Healthy Living Maintenance Program (HLMP), to residential properties that have received a HAC.

Safeguard, while developing the CEHI program, has engaged in working relationships with five industry participants: the National Association of Moisture Management (NAMM), Porter Valley Software, Inc., EMLabs P&K, Environmental Data Resources Inc. (EDR), CMC Energy Services, Inc. (CMC), and ConSol.

National Professional Services, Inc. (NPS): National Professional Services include organization, association and administrative management, advisory council and board of director coordination, seminars, conferences, graphic design and printing, accounting and reporting, and consulting. NPS provides management services for seven different membership organizations of which four are both National and International Organizations and one is non-profit.

Associations:

The National Association of Real Estate Appraisers (NAREA) - is a professional organization of real estate appraisers.

The Environmental Assessment Association (EAA) - is an international organization providing members with information and education in the environmental industry relating to environmental inspections and testing. EAA represents environmental professionals who provide services to various clients, including lenders, federal & state agencies, and private companies. EAA's membership consists of environmental inspectors, lenders, remediation firms, and government agencies.

The Association of Construction Inspectors (ACI) - is a professional organization for those involved in construction inspection and construction project management. ACI provides standards, guidelines, regulations, education, training, and professional

recognition in a field that has become critical for both residential and commercial construction. ACI provides both construction inspections (verifying percentage of completion for the purpose of draw requests) and construction project management (providing construction monitoring, paying of the contractor and sub-contractors, verifying each stage of construction, and reporting to the client).

The Housing Inspection Foundation (HIF) - is an organization of professionals to the promotion and development of Home Inspection. HIF was created to provide members with information, education, standards, ethics, and professional recognition.

The International Real Estate Institute (IREI) - is a professional organization making available real estate professionals to those requiring professional realty reports.

The International Society of Meeting Planners (ISMP) - is a professional organization making available professional meeting planners.

PORTER VALLEY SOFTWARE, INC. (PVS)

PVS has developed various software programs, which have been designed specifically for corporate applications that require detailed data searching and data retention solutions, including but not limited to InspectVue Report-Writers. InspectVue Report-Writers is a software application used by CEHIs for both residential and commercial structural, moisture, environmental, and fireplace inspections. InspectVue Report-Writers uses PVS' PVS Inspection Platform as its underlying technology to accumulate and record specific data on every building inspected.

Significant Events

On December 21, 2009, Environmental Service Professionals, Inc. establishes strategic relationship with the Merrell Institute Ink Cooperation of Services to provide value to a property and mitigate risk for the insurance, mortgage banking, building, real estate, and property management industries by reducing claims, instilling confidence in property safety, and promoting a positive green image.

History

The company was incorporated in 1992. It was formerly known as Glass-Aired Industries Group, LTD. and changed its name to Environmental Service Professionals, Inc. in 2006.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
