Such information creates your awareness about principal trends of Euroseas, Ltd. business.

About Euroseas, Ltd.

Euroseas Ltd. operates as an independent shipping company that provides worldwide ocean-going transportation services. The company owns and operates drybulk carriers that transport major bulks, such as iron ore, coal and grains, and minor bulks, such as bauxite, phosphate and fertilizers. It also owns and operates containerships and multipurpose vessels that transport dry and refrigerated containerized cargoes, mainly including manufactured products and perishables.

As of May 15, 2010, the company's fleet consisted of five drybulk carriers consists of four Panamax and one Handymax drybulk carriers, nine containerships and one multipurpose vessel. The total cargo carrying capacity of the 5 drybulk carriers is 331,808 deadweight tons, or dwt, and of the 9 containerships is 243,994 dwt and 15,779 twenty-foot equivalent units, or teu. The company's multipurpose vessel can carry 22,568 dwt and/or 950 teu.

The company's fleet consists of drybulk carriers that transport iron ore, coal, grain and other dry cargoes along worldwide shipping routes; containerships that transport container boxes providing scheduled service between ports; and multipurpose vessels that can carry either drybulk cargoes or containers.

Customers

The company's major charterer customers include Klaveness (Baumarine and Bulkhandling shipping pools), Orient Express Lines, Yang Ming Lines, CMA-CGM, Maersk, Sinochart, and Lloyd Triestino.

Competition

The company competes primarily with other shipowners of drybulk carriers in the Handysize, Handymax and Panamax drybulk carrier sectors and the containership sector. Some of its publicly listed competitors include Diana Shipping Inc., DryShips Inc., Excel Maritime Carriers Ltd., Eagle Bulk Shipping Inc., Genco Shipping and Trading Limited, Navios Maritime Holdings Inc., Danaos Corporation, and Goldenport Holdings Inc.

History

Euroseas Ltd. was founded in 2005.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
