The Evergood Products Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Evergood Products Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Evergood Products Corp. business.

About Evergood Products Corp.

Evergood Products Corporation together with its subsidiaries, related and affiliated entities (Evergood or the Company), is a manufacturer, franchisor, marketer, distributor and retailer of a wide line of high quality, value priced, branded and non-branded vitamins and minerals and dietary supplements in the United States, Europe and the Far East.

Products

Through its wholly owned subsidiary Phoenix Laboratories, Inc., Evergood manufactures substantially all of the vitamins and dietary supplements, which are sold and marketed under its Great Earth® and Bodyonics® brands. There are currently more than 1,200 products marketed at retail under the Great Earth brand in Great Earth's franchise stores and through mail order. Evergood markets and sells more than 40 products under its Bodyonics brand in various retail outlets including, Great Earth stores, The Vitamin Shoppe stores, independent health stores and other distributors, various gyms and fitness centers and through direct response and mail order. Phoenix also manufactures vitamin and dietary supplements on a contract basis for several well-known vitamin and dietary supplement companies.

Phoenix manufactures over 1,500 products including minerals, herbs and amino acids. Phoenix manufactures products in various potency levels, sizes, formulations, and delivery forms including tablets, soft gel and hard shell capsules, chewables, powders and liquids. Products are packaged in single vitamin and through multi-vitamin packets. Great Earth® products are sold only through the Great Earth vitamin franchise chains in the United States. Bodyonics® products are sold through various distribution channels including but not limited to, Great Earth, GNC, The Vitamin Shoppe and independent distributors, independent health stores, gyms and fitness centers and through direct response advertising throughout the United States.

Competition

In the United States, Evergood's Great Earth and Bodyonics brands compete for sales to consumers with heavily advertised national brands manufactured by companies, such as Sundown sold by Rexall, Nature Made sold by Pharmavite Corp., Your Life sold by Leiner Health Products and Nature's Bounty sold by NBTY. Evergood's Great Earth franchise stores compete with specialty vitamin stores, such as GNC, the Vitamin Shoppe and Vitamin World.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
