The eVision International, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes eVision International, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of eVision International, Inc. business.

About eVision International, Inc.

eVision International, Inc (the company) is a holding company that was incorporated in Colorado in 1988. eVision International, Inc and its subsidiaries are referred to collectively as eVision or the Company. As of September 30, 2001, eVision's consolidated subsidiaries include companies that: provide transaction processing, networking and internet based services; provide leveraged financing; provide high speed internet access via satellite; and design, develop and market information management software products for the healthcare industry.

Until December 19, 2000, one of eVision's significant subsidiaries, American Fronteer Financial Corporation (American Fronteer or AFFC), operated as a broker/dealer in securities.

As of September 30, 2001, eVision is majority owned by Heng Fung Holdings Limited (Heng Fung formerly known as Online Credit International Limited) and its subsidiary, Online Credit Limited (Online Credit). Heng Fung, eVision and its subsidiary, eBanker USA.com, Inc. (eBanker), are significant shareholders of Global Med Technologies, Inc. (Global Med).

Global Online Funds, Inc. (Global Online) a wholly-owned subsidiary of eVision owned

securities of Heng Fung through Lil Capital, Inc (Lil Capital formerly known as Frontier Capital, Inc. or Frontier Capital) wholly-owned by Global Online. Consequently, eVision, Heng Fung, Online Credit, OCCL, eBanker, Global Med, Global Online and Lil Capital, Inc. are considered related parties.

eBanker USA.com, Inc

eBanker is a consolidated subsidiary of eVision. As of September 30, 2001, eVision owned 40% of the outstanding common stock and 100% of the outstanding preferred stock of eBanker. eBanker was created with the purpose of providing a wide range of financial lending products and services. eBanker intends to identify, target and serve high-margin, global financial market segments. eBanker has been designed as a non-deposit taking, broad financial services entity, with the view of not being required to address the regulations facing traditional financial institutions.

Global Med Technologies, Inc

Global Med was organized under the laws of the State of Colorado in December 1989. Global Med designs, develops, markets and supports information management software products for blood banks, hospitals, centralized transfusion centers and other healthcare related facilities.

Global Med developed SAFETRACE® and SAFETRACE TX™, a transfusion management information system that is designed to be used by hospitals and centralized transfusion centers to help insure the quality of blood transfused into patient-recipients. SAFETRACE TX™ provides electronic cross-matching capabilities to help insure blood compatibility with patient-recipients and will track, inventory, bill and document all activities with blood products from the time blood products are received in inventory to the time the blood products are used or returned to blood centers. SAFETRACE TX™ complements SAFETRACE® as the combined SAFETRACE TX™ and SAFETRACE® software system integrates hospitals with blood centers and provides a vein-to-vein™ tracking of the blood supply.

During 1999, Global Med formed a subsidiary, PeopleMed.com, Inc., a Colorado corporation, which is approximately 83% owned by Global Med, to develop a software application designed to give HMO providers and other third party payers access to clinical information for chronic disease patients. This application will allow doctors and other medical employees access to a patient's history.

Skyhub Asia Holdings Limited

In January 2000, eVision issued 1,185,209 shares of common stock in exchange for newly issued shares of common stock which comprised a 60% ownership in Gemtron International Global Ltd., which later became Skyhub Asia Holdings Limited (Skyhub). Skyhub's operations to date consist of equipment sales, support services and broadband internet access.

American Fronteer Financial Corporation

American Fronteer's business consisted of providing retail securities brokerage and investment services, trading fixed income and equity securities, providing investment banking services to corporate and municipal clients, managing and participating in underwriting corporate and municipal securities and selling a range of professionally managed mutual funds and insurance products.

Other Subsidiaries

eBiz Web Solutions, Inc. (eBiz Web Solutions), formerly NeuroWeb Canada, Inc., a Canadian corporation formed in November 1999, is a wholly owned subsidiary of eVision. eBiz Web Solutions operated as a website development company until February 2001 at which time it ceased such operations. In addition to providing website development services for eVision, eBanker and AFFC, eBiz Web Solutions contracted with other commercial enterprises.

In January 2000, eVision acquired 100% of the outstanding stock of Global Growth, a Canadian corporation. The property is commercial real estate and served as the offices for eBiz Web Solutions.

eVision also has the following wholly owned subsidiaries with minor operating activities: eVision Corporate Services, Inc. (eVision Corporate Services), a Colorado corporation and Corporate Net Solutions, Inc. (Corporate Net Solutions), a Colorado corporation.

Competition

Global Med is aware of four primary competitors to its Safetrace software product, including MAK-SYSTEM Corp. in France, Information Data Management, Inc., Blood Bank Computer Systems, Inc. and Systec Computer Associates in the United States. There are three primary competitors in the United States to its Safetrace TX product,

Sunquest, MEDIWARE Information Systems, Inc. and Cerner Corp.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
