company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Firebrand Financial Group, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Firebrand Financial Group, Inc. business.

### **About Firebrand Financial Group, Inc.**

Firebrand Financial Group, Inc (Firebrand Financial or the Company) owns 63.6% of EarlyBirdCapital.com Inc. (EarlyBird.com), which in turn owns 100% of EarlyBirdCapital, Inc. (EarlyBirdCapital) and Dalewood Associates, Inc. (Dalewood). Firebrand Financial also owns 100% of GKN Securities Corp. (GKN) and 80% of StreetWide Asset Recovery Group, Inc. (StreetWide). As of January 31, 2001 Firebrand Financial also owned 56.4% of Shochet Holding Corp. (Shochet).

Through its subsidiaries, EarlyBirdCapital (formerly known as Southeast Research Partners, Inc.) and Dalewood, the company provides investment banking, asset management, and securities brokerage services, with an emphasis on small- and mid-capitalization companies and early-stage growth companies. These services are provided through the following primary divisions that include: Investment banking, Securities brokerage and Asset management

During the first quarter of fiscal 2002, the company established the StreetWide Asset Recovery Group (StreetWide). StreetWide is engaged by broker/dealers and other financial institutions to collect debt due to them from former employees or from customers.

## Other Business

In the first quarter of fiscal 2002, the company established the StreetWide Asset Recovery Group (StreetWide). StreetWide is engaged by broker/dealers and other financial institutions to collect debt due to them from prior broker employees or from customers. The broker debts are generated through brokers reneging on employment contracts or brokers generating other losses due to their respective firms. The customer debt is usually generated through unsecured margin loans on which the customers have refused to repay the firms.

## EarlyBird.com

The Company offers investment banking services and asset management through its majority-owned holding company EarlyBirdCapital.com Inc. EarlyBirdCapital.com wholly-owns EarlyBirdCapital, Inc., an investment banking broker-dealer, Dalewood Associates, Inc., the manager and general partner of a private investment fund, and EarlyBirdCapital Management Limited, the investment advisor to an offshore investment company.

## Investment Banking Division

The company has been involved in the investment banking business in excess of ten years. In February 2000, the company broadened its investment banking business and established the operations of EarlyBirdCapital, Inc. EarlyBirdCapital, Inc. provides client-companies with advisory services and access to capital, and institutions and accredited investors with readily accessible investment opportunities. EarlyBirdCapital, Inc. engages in the business of financing early stage, emerging-growth companies through the sale of their equity securities to investors in private offerings conducted through conventional methods.

## Asset Management Division

The Company entered the merchant banking and asset management business in 1996 with the acquisition of Dalewood Associates, Inc. Dalewood is the managing partner of Dalewood Associates L.P., a private investment partnership that makes investments in certain carefully selected companies and provides them with financing to advance their business to the next stage of their development.

In fiscal 2001, EarlyBirdCapital.com established an offshore investment manager,

EarlyBirdCapital Management Limited (EBCM). EBCM was responsible for managing the assets of Dalewood 2 Private Technology Limited during fiscal 2002. During fiscal 2002, EBCM was entitled to an annual management fee based on the assets of Dalewood 2 and an incentive fee based on the performance of Dalewood 2 each year.

#### StreetWide Asset Recovery Group

In the first quarter of fiscal 2002, the company established the StreetWide Asset Recovery Group (StreetWide). StreetWide is engaged by broker/dealers and other financial institutions to collect debt due to them from former employees or from customers.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
