Such information creates your awareness about principal trends of The First Bancorp, Inc. business.

About The First Bancorp, Inc.

The First Bancorp, Inc. operates as the holding company for The First, N.A., which provides banking services primarily for small businesses and individuals.

The company offers various services, including deposit accounts, consumer and commercial, and mortgage loans. In addition to providing traditional banking services, it provides investment management and private banking services through First Advisors, which is an operating division of the company. First Advisors offers private banking, financial planning, investment management, and trust services to individuals, businesses, non-profit organizations, and municipalities. As of December 31, 2009, the company provided services through 14 offices in coastal Maine.

Lending Activities

The company's commercial loans comprise three categories, commercial real estate loans, commercial construction loans, and other commercial loans. Commercial real estate primarily comprises loans to small businesses collateralized by owner-occupied real estate, while other commercial primarily comprises loans to small businesses collateralized by plant and equipment, commercial fishing vessels and gear, and limited inventory-based lending.

The company's residential loans also comprise two categories, term loans, which include traditional amortizing home mortgages and home equity loans and lines of credit; and construction loans, which include loans for owner-occupied residential construction.

The company's consumer loans are primarily short-term amortizing loans to individuals collateralized by automobiles, pleasure craft, and recreations vehicles.

Deposits

As of December 31, 2009, the company's deposit products included demand deposits, NOW accounts, money market accounts, savings accounts, and certificates of deposit.

Investment Portfolio

As of December 31, 2009, the company's investment portfolio included U.S. treasury and agency securities, mortgage-backed securities, securities of state and political subdivisions, corporate securities, and other equity securities.

History

The company was founded in 1864. It was formerly known as First National Lincoln Corporation and changed its name to The First Bancorp, Inc. in 2008.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
