Such information creates your awareness about principal trends of First Banctrust Corp. business.

### **About First Banctrust Corp.**

First BancTrust Corporation operates as the holding company for First Bank & Trust, s.b. The Bank's main office is located in Paris, Illinois with branch offices in Marshall and Martinsville, Illinois in Clark County; and Savoy and Rantoul, Illinois in Champaign County.

The company's primary business is attracting deposits from the general public and using those funds to originate loans secured by one-to four-family residential properties, commercial real estate loans, agricultural real estate loans, commercial and industrial loans, agricultural production finance loans, consumer loans and other loans.

#### Subsidiaries

The company's subsidiaries include First Bank & Trust, s.b. (the Bank), ECS Service Corporation, and First Charter Service Corporation.

#### Lending Activities

The Bank's loan portfolio, as of December 2007, included one-to four-family residential properties, commercial real estate loans, agricultural real estate loans, commercial and

industrial loans, agricultural production finance loans, consumer loans, and tax-exempt loans.

**One-to-Four Family Residential Real Estate Loans:** The Bank originates these loans secured by single-family residences. The Bank's second mortgage or home equity loans are secured by the underlying equity in the borrower's residence, and accordingly, are reported with the one-to-four family real estate loans.

**Commercial Real Estate Loans:** The Bank's commercial real estate portfolio primarily consists of loans secured by office buildings, warehouses, production facilities, recreational facilities, retail stores and restaurants.

**Agricultural Real Estate Loans:** The Bank's agricultural loans are primarily secured by farmland located in its market area and other counties in east-central Illinois and western Indiana.

**Commercial and Industrial Loans:** The Bank's commercial loans include short-term working capital loans and term loans for capital purchases, secured by inventory, accounts receivable, fixtures, or equipment. Its commercial and industrial loans are made to small to medium-sized businesses within its market area.

**Agricultural Production Finance Loans:** These loans are extended to farmers in its market area and other counties in Illinois and Indiana for the purchase of equipment, seed, fertilizer, insecticide and other purposes in connection with agricultural production.

**Consumer Loans:** The consumer loans include vehicle loans, consumer finance loans, loans secured by deposit accounts. It offers vehicle loans on both new and used vehicles.

**Real Estate Construction Loans:** The Bank's construction loans include loans made to borrowers to construct individual pre-sold homes.

**Multi-Family Residential Loans:** The Bank offers a small amount of multi-family (over four units) residential loans.

## Investment Activities

As of December 2007, the Bank's investment portfolio included U.S. government securities, securities issued by U.S. treasuries, securities issued by federal agencies,

state and municipal securities, equity securities, municipal securities, and mortgage-backed securities.

## Deposits

The Bank's deposit products include money market deposits, savings deposits, NOW and other demand deposits, and non-interest bearing deposits.

## History

First BancTrust Corporation was founded in 1887.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
