The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of First Capital Bancshares Inc. business.

About First Capital Bancshares Inc.

First Capital Bancshares, Inc (the Company) was incorporated as a South Carolina corporation in 1998 primarily to own and control all of the capital stock of First Capital Bank (the bank). The bank is engaged in commercial banking business.

Market Area

The bank's market area comprises of Marlboro County, South Carolina, Laurinburg and Scotland County, North Carolina.

Deposits

The bank offers a full range of deposit services that include checking accounts, commercial accounts, savings accounts, and other time deposits of various types, ranging from daily money market accounts to longer-term certificates of deposit. In addition, the company offers certain retirement account services, such as individual retirement accounts (IRAs). The bank solicits these accounts from individuals, businesses, associations and organizations, and governmental authorities.

Lending Activities

The bank emphasizes a range of lending services, including real estate, commercial and consumer loans, to individuals and small- to medium-sized businesses and professional concerns that are located in or conduct a substantial portion of their business in its market area. The Company emphasizes retail banking, home mortgages, real estate development, and consumer lending needs.

Real Estate Loans: One of the primary components of the company's bank's loan portfolio is loans secured by first or second mortgages on real estate. These loans generally consist of commercial real estate loans, construction and development loans, and residential real estate loans (home equity loans are excluded from this category as they are classified as consumer loans).

Commercial Loans: The bank makes loans for commercial purposes in various lines of businesses. Equipment loans are typically for a term of five years or less at fixed or variable rates. Many of the company's commercial loans are made to small- to medium-sized businesses.

Consumer Loans: The bank makes a variety of loans to individuals for personal and household purposes, including secured and unsecured installment and term loans, home equity loans and lines of credit, and revolving lines of credit such as credit cards.

Other Banking Services

The bank's other services include cash management services, safe deposit boxes, travelers checks, direct deposit of payroll and social security checks, and automatic drafts for various accounts. The bank is associated with a shared network of automated teller machines that may be used by its customers throughout the company's bank's primary market area and other regions. The bank also offers MasterCard and VISA credit card services through a correspondent bank as an agent for the bank.

Competition

The Company's competitors include branches of Wachovia, BB&T, First Citizens Bank, Centura Bank, and Carolina Bank & Trust.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need

2-3 days to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
