The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of First Cash Financial Services Inc. business.

### **About First Cash Financial Services Inc.**

First Cash Financial Services, Inc. operates pawn and consumer finance stores in the United States and Mexico. As of March 2010, the company had approximately 550 locations in 8 U.S. states and 19 states in Mexico.

#### **Pawn Lending Activities**

The company's pawn stores engage in both consumer finance and retail sales activities. Its pawn stores make small loans to their customers to help them meet their short-term cash needs. The loans are collateralized by personal property, such as jewelry, electronic equipment, household appliances, tools, sporting goods, and musical instruments. Pawn loans are non-recourse loans and the pledged goods provide the security to the company for the repayment of the pawn.

The company's pawn stores are a source for small consumer loans to help customers meet their short-term cash needs. Personal property, such as jewelry, consumer electronics, tools, sporting goods and musical instruments are pledged as collateral for the loans. Its pawn stores offer short-term loans or credit services products.

#### **Credit Services Activities**

The company offers a fee-based credit services organization program (CSO program) to assist consumers in its Texas and Maryland markets in obtaining credit. The company's short-term loan and pawn stores in Texas offer the CSO program, and in Maryland and Texas, credit services are offered through an Internet platform. Under the CSO program, the company assists customers in applying for a short-term loan from an independent, non-bank, consumer lending company (the Independent Lender) and issues the Independent Lender a letter of credit to guarantee the repayment of the loan. The company collects bad debts by redepositing the customers' checks, ACH collections or subsequent cash repayments by the customers.

### Short-Term Loan Activities

The company's 10 short-term loan stores in Illinois make both short-term installment loans and payday loans for a term typically 90 days or less. The term of the short-term loan generally ranges from 7 to 31 days. In Illinois, the company offers an installment loan product with terms of 14 to 180 days. In Mexico, it offers an installment loan product with terms of 7 to 365 days. The company collects bad debts by redepositing the customers' checks, ACH collections or subsequent cash repayments by the customers.

### Discontinued Operations

In 2009, the company sold its payday/short-term loan operations in Michigan and certain Texas credit services/short-term loan stores were discontinued.

### History

First Cash Financial Services, Inc. was founded in 1988.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
