The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of First Commonwealth Financial Corp. business.

About First Commonwealth Financial Corp.

First Commonwealth Financial Corporation, through its bank subsidiary, First Commonwealth Bank, provides consumer and commercial banking services to small and mid-sized businesses in central and western Pennsylvania. The company also provides trust and wealth management services through First Commonwealth Financial Advisors, Inc. (FCFA) and insurance products through First Commonwealth Insurance Agency, Inc. (FCIA).

As of December 31, 2009, the company operated 115 community banking offices throughout western Pennsylvania and 3 loan production offices in downtown Pittsburgh, State College and Canonsburg, Pennsylvania. It also operated a network of 124 automated teller machines (ATMs), at various branch offices and offsite locations. It is also a member of the 31-bank Freedom ATM Alliance, which affords cardholders surcharge-free access to a network of approximately 700 ATMs in approximately 50 counties in Pennsylvania, Maryland, New York, West Virginia, and Ohio.

Services

The company's consumer services include Internet and telephone banking, an automated teller machine network, personal checking accounts, interest-earning checking accounts, savings accounts, health savings accounts, insured money market accounts, debit cards, investment certificates, fixed and variable rate certificates of deposit, secured and unsecured installment loans, construction and mortgage loans, safe deposit facilities, credit lines with overdraft checking protection, IRA accounts and student loans. Commercial banking services include commercial lending, small and high-volume business checking accounts, on-line account management services, ACH origination, payroll direct deposit, commercial cash management services, and repurchase agreements. It also provides various trust and asset management services and a complement of auto, home and business insurance, as well as term life insurance. The company offers annuities, mutual funds, stock and bond brokerage services through an arrangement with a broker-dealer and insurance brokers. Most of its commercial customers are small and mid-sized businesses in central and western Pennsylvania.

Loan Portfolio

As of December 31, 2009, the company's loan portfolio included commercial, financial, agricultural and other loans; real estate-construction loans; real estate-residential loans; real estate-commercial loans; and loans to individuals.

Investment Portfolio

As of December 31, 2009, the company's investment portfolio included obligations of U.S. government agencies; obligations of U.S. government agencies; mortgage backed securities – residential; mortgage backed securities – commercial; other government-sponsored enterprises; obligations of states and political subdivisions; corporate securities; and pooled trust preferred collateralized debt obligations.

Deposits

The company offers interest-bearing demand deposits; savings deposits; and time deposits.

History

First Commonwealth Financial Corporation was founded in 1982.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
